*The Patient Will See You Now* Eric Topol,2016-10-25 The essential guide by one of America s leading doctors to how digital technology enables all of us to take charge of our health A trip to the doctor is almost a guarantee of misery You ll make an appointment months in advance You ll probably wait for several hours until you hear the doctor will see you now but only for fifteen minutes Then you ll wait even longer for lab tests the results of which you ll likely never see unless they indicate further and more invasive tests most of which will probably prove unnecessary much like physicals themselves And your bill will be astronomical In *The Patient Will See You Now* Eric Topol one of the nation s top physicians shows why medicine does not have to be that way Instead you could use your smartphone to get rapid test results from one drop of blood monitor your vital signs both day and night and use an artificially intelligent algorithm to receive a diagnosis without having to see a doctor all at a small fraction of the cost imposed by our modern healthcare system The change is powered by what Topol calls medicine s Gutenberg moment Much as the printing press took learning out of the hands of a priestly class the mobile internet is doing the same for medicine giving us unprecedented control over our healthcare With smartphones in hand we are no longer beholden to an impersonal and paternalistic system in which doctor knows best Medicine has been digitized Topol argues now it will be democratized Computers will replace physicians for many diagnostic tasks citizen science will give rise to citizen medicine and enormous data sets will give us new means to attack conditions that have long been incurable Massive open online medicine where diagnostics are done by Facebook like comparisons of medical profiles will enable real time real world research on massive populations There s no doubt the path forward will be complicated the medical establishment will resist these changes and digitized medicine inevitably raises serious issues surrounding privacy Nevertheless the result better cheaper and more human health care will be worth it Provocative and engrossing *The Patient Will See You Now* is essential reading for anyone who thinks they deserve better health care That is for all of us

and paves a solid foundation for future studies on the use of technologies in education. It is concluded that satisfaction is positively correlated with interaction self-efficacy and self-regulation in clickers-aided EFL class without statistically significant gender differences. Learner attitude, technology anxiety, teachers' prompt feedback, flexibility of Clickers-aided EFL Flipped Class, perceived usefulness, and ease of technology use exert significant influence on learner satisfaction. The flipped business English writing classroom brings about better academic achievements and causes more satisfaction than the traditional one. Males are significantly more satisfied and achieved higher with Clickers-aided EFL Flipped Class than females. Videos, initial EFL proficiency, learner attitudes, and motivation could exert significant influence on EFL proficiency and learner satisfaction. The learning attitude, interest, and intrinsic motivation are significantly and mutually correlated in both Clickers-aided EFL Flipped Class and the traditional class. The book is considered a wonderful exploration in the use of clickers in the EFL flipped class. Studies in this book are conducted in a cross-disciplinary manner and show readers a fresh view.
