Poverty Gap** Adam Gamoran,2008-04-01 The No Child Left Behind Act NCLB is the latest in more than two decades of
federal efforts to raise educational standards and an even longer stream of initiatives to improve education for poor children
What lessons can we draw from these earlier efforts to help NCLB achieve its goals In Standards Based Reform and the
Poverty Gap leading scholars in sociology economics psychology and education policy take on this critical question Armed
with the latest data and up to date research syntheses the authors show that standards based reform has had some positive
effects particularly in the area of teacher quality Moreover some of the critics greatest fears have not been realized for
example retention rates have not shot upward Yet the overall pace of improvement has been slow owing in part to poor
implementation Based on these findings the contributors offer recommendations for the implementation and impending
reauthorization of NCLB These proposals such as national testing and a rethinking of achievement targets are sure to be at
the center of the upcoming debate Contributors include Thomas Dee Laura Desimone George Farkas Barbara Foorman Brian
