## Section 1

Comprehension 1: Language in context

Question 1: Comprehension

Read the following text, then answer the questions about it.

### The Importance of Folktales

Storytelling is an important part of most cultures. Some cultures have written stories, but many use the oral tradition. The practice passes information from one generation to another through spoken words.

These stories are called folktales. The stories teach, inform, and entertain listeners. Interestingly, stories usually tell the same. The great thing is they are born from cultural history.

Folktales are stories about traditional customs. These stories are about magic, art, and the history of a culture's folklore.

What is the other thing we learn

Folktales are an important part of culture. We learn all about the customs and values. The story is a lesson from our culture and values.

Multilingual Learning and Language Supportive Pedagogies in Sub-Saharan Africa Elizabeth J. Erling, John Clegg, Casmir M. Rubagumya, Colin Reilly, 2021-07-01 This edited collection provides unprecedented insight into the emerging field of multilingual education in Sub Saharan Africa. SSA Multilingual education is claimed to have many benefits amongst which are that it can improve both content and language learning especially for learners who may have low ability in the medium of instruction and are consequently struggling to learn. The book represents a range of Sub Saharan school contexts and describes how multilingual strategies have been developed and implemented within them to support the learning of content and language. It looks at multilingual learning from several points of view including translanguaging or the use of multiple languages and especially African languages for learning and language supportive pedagogy or the implementation of a distinct pedagogy to support learners working through the medium of a second language. The book puts forward strategies for creating materials, classroom environments and teacher education programmes which support the use of all of a student's languages to improve language and content learning. The contexts which the book describes are challenging including low school resourcing, poverty and low literacy in the home and school policy which militates against the use of African languages in school. The volume also draws on multilingual education approaches which have been successfully carried out in higher resource countries and lend themselves to being adapted for use in SSA. It shows how multilingual learning can bring about transformation in education and provides inspiration for how these strategies might spread and be further developed to improve learning in schools in SSA and beyond. Chapter 3 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com>.

**Multilingual classroom contexts** Prof Christa van der Walt,Dr Verbra Pfeiffer,2021-12-01 By far the majority of South African students get their schooling in a second language which means that our classrooms are multilingual This state of affairs is not exclusive to our country as can be seen in the many academic conferences on multilingual learning and teaching Terms like translanguaging and biliteracy appear in many articles and books that discuss the role language in education What makes the multilingual nature of our South African classrooms challenging is the fact that many learners switch from one language of learning and teaching to another at various points in their school career from home language to English or Afrikaans after the foundation phase from one language of learning and teaching to another when they move to new schools high school or tertiary institutions This book is an attempt to highlight the transitions from home to school from foundation to intermediate phase from primary to high school and from high school to tertiary institutions
