Heathenism Andreas Mang,Axel Voss,2014-11-23 Since the early seventies the ancient pre Christian religions of Europe are receiving an ever increasing popularity Due to the marginal number of adherents they are rarely recognised by the public This is not detrimental but their philosophies concepts and basic views are not well known and therefore prone to misunderstanding and misjudgement The main reason for this faulty perception is the lack of knowledge about the basic concepts of old and new paganism They clearly differ from the established religions and are usually overlooked by modern monotheists and atheists The followers of modern Nordic Germanic paganism suffer especially from the bias of a supposedly inherent right wing extremism This is based on a comprehensible but clearly distorted historical perspective This book is a translation of the German original Aufgeklartes Heidentum and dares to attempt the replacement of common misconceptions and ignorance with facts and insights *The Blackwell Companion to Modern Theology* Gareth Jones,2008-04-15 In this major reference work a team of the world s leading theologians provides a powerful overview of modern theology Covers theology s relation to other disciplines the history of theology major themes key figures and contemporary issues Can be used as the basis for an introductory course or as an essential reference source **Heathen Imperialism** Julius
