The Art of Indirection in British Espionage Fiction Robert Lance Snyder, 2011-07-25

In contrast to the classical detective story, the spy novel tends to be considered a suspect, somewhat subversive genre. While previous studies have focused on its historical, thematic, and ideological dimensions, this critical work examines British espionage fiction's unique narrative form, which is typically elliptical, oblique, and recursive. Featured works include eighteen novels by Eric Ambler, Graham Greene, Len Deighton, John le Carré, Stella Rimington, and Charles Cumming, most of which exemplify the existential or serious spy thriller. Half of these texts pertain to the Cold War era, and the other half to its aftermath in the so-called Age of Terrorism.

World War I on Film Paul M. Edwards, 2016-03-11 One of the central events of modern history World War I has been poorly presented in English language films Torn between the powerful isolationist movement in the U S and a growing hatred of the Hun contemporary films were mainly propaganda calling citizens to arms The American film industry used the outbreak of the war and the government's interest in promoting patriotic sacrifice as a means to expand and take the lead in the film industry worldwide More a business model than an art form these early efforts claimed a place of respectability for film among the arts Twenty years later though films produced about the war were few they were technically superior and generally carried conflicting messages about the war's mission and value while focusing more on storyline than history This study of English Language World War I films examines nearly 350 films from 1914 to 2014 Descriptions and critiques of each of the films are included with stories and details about the actors and directors

Faulkner's Hollywood Novels Ben Robbins, 2024-08-12 Tracing the influence of Faulkner's screenwriting on his literary craft and depictions of women William Faulkner's time as a Hollywood screenwriter has often been dismissed as little more than an intriguing interlude in the career of one of America's greatest novelists Consequently it has not received the wide ranging critical examination it deserves In *Faulkner's Hollywood Novels* Ben Robbins provides an overdue thematic analysis by systematically tracing a dialogue of influence between Faulkner's literary fiction and screenwriting over a period of two decades Among numerous insights Robbins's work sheds valuable new light on Faulkner's treatment of female characters both in his novels and in the films to which he contributed Drawing on extensive archival research Robbins finds that Hollywood genre conventions and archetypes significantly influenced and reshaped Faulkner's craft after his involvement in the studio system His work in the film industry also produced a deep exploration of the gendered dynamics of collaborative labor genre formulae and cultural hierarchies that materialized in both his Hollywood screenplays and his experimental fiction

Outstanding Book in the High School Category selected by the American Association of School Libraries Best Book in Special Interest Category selected by the Public Library Association **The Films of the Eighties** William J. Palmer, 1995 In this remarkable sequel to his *Films of the Seventies A Social History* William J. Palmer examines more than three hundred films as texts that represent, revise, parody, comment upon and generate discussion about major events, issues and social trends of the eighties. Palmer defines the dialectic between film art and social history taking as his theoretical model the holograph of history that originated from the New Historicist theories of Hayden White and Dominick LaCapra. Combining the interests and methodologies of social history and film criticism, Palmer contends that film is a socially conscious interpreter and commentator upon the issues of contemporary social history. In the eighties such issues included the war in Vietnam, the preservation of the American farm, terrorism, nuclear holocaust, changes in Soviet-American relations, neoconservative feminism and yuppies. Among the films Palmer examines are *Platoon*, *The Killing Fields*, *The River Out of Africa*, *Little Drummer Girl*, *Kiss of the Spiderwoman*, *Silkwood*, *The Day After*, *Red Dawn*, *Moscow on the Hudson*, *Troop Beverly Hills* and *Fatal Attraction*. Utilizing the principles of New Historicism, Palmer demonstrates that film can analyze and critique history as well as present it.

Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 *Looking Glass Wars: Spies on British Screens since 1960* is a detailed historical and critical overview of espionage in British film and television in the important period since 1960. From that date the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema, the spy thriller and of the new style spy writing of John le Carr and Len Deighton, the espionage story. In the 1960s there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films. The study also brings new attention to espionage on British television and popular secret agent series such as *Spy Trap*, *Quiller* and *The Sandbaggers*. It also gives attention to the more realistic representation of spying in the film and television adaptations of le Carr and Deighton and other dramas with a more serious intent. In addition, there is wholly original attention given to nostalgic spy fictions on screen, adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s, and to historical spy fiction dramas which treated real cases of espionage and their characters, most notably the notorious Cambridge Spies. Detailed attention is also given to the secret state thriller, a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light, best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up to date with an examination of screen espionage in Britain since the end of the Cold War. The approach is empirical and historical. The study examines the production and reception, literary and historical contexts of the films and dramas. It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films, series and serials never previously considered.
