**The Routledge Handbook of Media Use and Well-Being** Leonard Reinecke, Mary Beth Oliver, 2016-06-23 The Routledge Handbook of Media Use and Well Being serves as the first international review of the current state of this fast developing area of research The volume provides a multifaceted perspective on the beneficial as well as the detrimental effects of media exposure on psychological health and well being As a first mover it will define the field of media use and well being and provide an essential resource for research and teaching in this area The volume is structured along four central considerations Processes presents concepts that provide a theoretical bridge between media use and well being such as psychological need satisfaction recovery from stress and strain self presentation and self enhancement or parasocial interactions with media characters providing a comprehensive understanding of the underlying processes that drive psychological health and well being through media Moderators examines both risk factors that promote negative effects on well being and protective factors that foster positive media effects Contexts bridges the gap between theory and real life by illustrating how media use can influence well being and satisfaction in very different life domains covering the full spectrum of everyday life by addressing the public private and work spheres Audiences takes a look at the influence of life phases and life situations on the interplay of media use and well being questioning whether various user groups differ with regard to the effects of media exposure Bringing together the expertise of outstanding international scholars from multiple disciplines including communication media psychology social psychology clinical psychology and media education this handbook sheds new light on the role of media in influencing and affecting emotions *Curriculum Development and Review for Democratic Citizenship and Human Rights Education* Tibbitts, Felisa, Council of Europe, 2016-03-01 Education for democratic citizenship and human rights education are vital for peaceful sustainable and inclusive societies based on respect for the human rights of every person Effective teaching and learning processes require well trained teachers positive learning environments and high quality learning materials This is underpinned by education policy including curriculum development and review which is the main focus of this book The strengthening of education policies in the fields of education for democratic citizenship and human rights lies at the very heart of the efforts of the Council of Europe the United Nations Educational Scientific and Cultural Organization the Office for Democratic Institutions and Human Rights of the Organization for Security and Co operation in Europe and the Organization of American States These organisations have jointly produced this publication in order to support states commitment to fostering citizenship and human rights education and improving access to quality education for all **The Social Life of Prayer** Andreas Bandak, 2021-03-09 This book brings the theme of prayer into anthropological discussion Across diverse significant ethnographic case studies five anthropologists attend to prayers and how they are performed and seen to intervene in the social world The studies include Pentecostals in Zambia Charismatic Christians in Ghana Protestants in Scotland Eastern Orthodox Christians in Romania and Catholics in Syria Across these

ethnographic cases the book argues that focusing on the social life of prayer offers a significant way to engage with matters close to people Prayers are a way to map affect and the affective relationships people hold in what they are oriented towards and care about Taking its cue from Marcel Mauss the book invites us to go beyond the individual and see how prayers always point to a broader social landscape of obligation and affective investment Focusing on the social life of prayers the book posits accordingly entices a particular form of situated comparison of diverse Christian traditions that pushes the scholarly conversation on Christianity to consider central questions of agency responsibility and subjectivity Taking up prayer as the object of study this book offers novel anthropological perspectives on Christian life and practice The chapters in this book were originally published a special issue of Religion *The Partisan Next Door* Ethan C. Busby,Adam J. Howat,Jacob E. Rothschild,Richard M. Shafranek,2021-09-29 In the United States politics has become tribal and personalized The influence of partisan divisions has extended beyond the political realm into everyday life affecting relationships and workplaces as well as the ballot box To help explain this trend we examine the stereotypes Americans have of ordinary Democrats and Republicans Using data from surveys experiments and Americans own words we explore the content of partisan stereotypes and find that they come in three main flavors parties as their own tribes coalitions of other tribes or vehicles for political issues These different stereotypes influence partisan conflict people who hold trait based stereotypes tend to display the highest levels of polarization while holding issue based stereotypes decreases polarization This finding suggests that reducing partisan conflict does not require downplaying partisan divisions but shifting the focus to political priorities rather than identity a turn to what we call responsible partisanship *The Routledge Companion to Public Relations* Donnalyn Pompper,Katie R. Place,C. Kay Weaver,2022-11-01 Public relations is a uniquely pervasive force in our modern economy influencing every aspect of our lives from the personal to the political This comprehensive volume provides an expert overview of current scholarship reflecting the impact of technology society and demographic shifts in a complex global environment The last century saw the emergence of the public relations discipline This expertly curated collection explores the dynamic growth in thinking about public relations role in our changing global society now and into the future It reflects the challenges and perspectives of postcolonial postmodern feminist critical race theory social responsibility sustainability activist standpoints as well as the profound and unpredictable impact of technological change and social media Each chapter provides an overview of current knowledge and its roots while engaging with emerging new directions and old debates and advocates for where the research agenda is likely to advance in the future This unique Companion will be an essential resource for students and researchers in public relations communication marketing media and cultural studies It provides an authoritative reference for educators and a one stop repository of public relations knowledge scholarship and debates for the enquiring professional **Teaching Life Skills in the Liberal Arts and Sciences** Angela C. Bauer,2025-10-13 Today s students seek an education that connects classroom learning to their future success both personal and professional Teaching

**Existential Flourishing** Irene McMullin,2018-12-13 This innovative volume argues that flourishing is achieved when individuals successfully balance their

responsiveness to three kinds of normative claim self fulfilment moral responsibility and intersubjective answerability Applying underutilised resources in existential phenomenology Irene McMullin reconceives practical reason addresses traditional problems in virtue ethics and analyses four virtues justice patience modesty and courage Her central argument is that there is an irreducible normative plurality arising from the different practical perspectives we can adopt the first second and third person stances which each present us with different kinds of normative claim Flourishing is human excellence within each of these normative domains achieved in such a way that success in one does not compromise success in another The individual virtues are solutions to specific existential challenges we face in attempting to do so This book will be important for anyone working in the fields of moral theory existential phenomenology and virtue ethics *Against Individualism* Henry Rosemont Jr.,2015-03-25 The first part of *Against Individualism A Confucian Rethinking of the Foundations of Morality Politics Family and Religion* is devoted to showing how and why the vision of human beings as free independent and autonomous individuals is and always was a mirage that has served liberatory functions in the past but has now become pernicious for even thinking clearly about much less achieving social and economic justice maintaining democracy or addressing the manifold environmental and other problems facing the world today In the second and larger part of the book Rosemont proffers a different vision of being human gleaned from the texts of classical Confucianism namely that we are first and foremost interrelated and thus interdependent persons whose uniqueness lies in the multiplicity of roles we each live throughout our lives This leads to an ethics based on those mutual roles in sharp contrast to individualist moralities but which nevertheless reflect the facts of our everyday lives very well The book concludes by exploring briefly a number of implications of this vision for thinking differently about politics family life justice and the development of a human centered authentic religiousness This book will be of value to all students and scholars of philosophy political theory and Religious Chinese and Family Studies as well as everyone interested in the intersection of morality with their everyday and public lives **Freedom and Environment** Michael Hannis,2015-10-05 Must freedom be sacrificed to achieve ecological sustainability or vice versa Can we be genuinely free and live in sustainable societies This book argues that we can if we recognise and celebrate our ecological embeddedness rather than seeking to transcend it But this does not mean freedom can simply be redefined to fit within ecological limits Addressing current unsustainability will involve significant restrictions and hence will require political justification not just scientific evidence Drawing on material from perfectionist liberalism capabilities approaches human rights relational ethics and virtue theory Michael Hannis explores the relationship between freedom and sustainability considering how each contributes to human flourishing He argues that a substantive and ecologically literate conception of human flourishing can underpin both capability based environmental rights and a eudaimonist ecological virtue ethics With such a foundation in place public authorities can act both to facilitate ecological virtue and to remove structural incentives to ecological vice *Freedom and Environment* is a lucid addition to existing

literature in environmental politics and virtue ethics and will be an excellent resource to those studying debates about freedom with debates about ecological sustainability      On Practice and Institution Michael Lounsbury, Deborah A. Anderson, Paul Spee, 2021-01-12 The concepts of practice and institution are of longstanding importance across the social sciences that have been too disconnected Bringing together novel theoretical statements and empirical studies that bridge these social worlds these two volumes provide a major touchstone for scholars interested in the study of practice and institution      Organizational Ethics Craig E. Johnson, 2024-12-30 Organizational Ethics A Practical Approach Sixth Edition provides readers with opportunities to apply ethical principles and practices in a variety of settings through self assessments analyses projects and discussion Bestselling author Craig E Johnson shows how we can develop our ethical competence just as we develop our abilities to manage or oversee operations      **Face Perception across the Life-Span** Bozana Meinhardt-Injac, Andrea Hildebrandt, 2017-03-17 Face perception is a highly evolved visual skills in humans This complex ability develops across the life span steeply rising in infancy refining across childhood and adolescence reaching highest levels in adulthood and declining in old age As such the development of face perception comprises multiple skills including sensory e g mechanisms of holistic configural and featural perception cognitive e g memory processing speed attentional control and also emotional and social e g reading and interpreting facial expression domains Whereas our understanding of specific functional domains involved in face perception is growing there is further pressing demand for a multidisciplinary approach toward a more integrated view describing how face perception ability relates to and develops with other domains of sensory and cognitive functioning In this research topic we bring together a collection of papers that provide a shot of the current state of the art of theorizing and investigating face perception from the perspective of multiple ability domains We would like to thank all authors for their valuable contributions that advanced our understanding of face and emotion perception across development      *Heroism and Wellbeing in the 21st Century* Olivia Efthimiou, Scott Allison, Zeno Franco, 2018-02-13 Offering a holistic take on an emerging field this edited collection examines how heroism manifests is appropriated and is constructed in a broad range of settings and from a variety of disciplines and perspectives Psychologists educators lawyers researchers and cultural analysts consider how heroism intersects with wellbeing and how we still use and even abuse heroism as a vehicle to thrive and prosper in the everyday and in the face of the most unbearable situations Highlighting some of the most pressing issues in today s world including genocide racism deceitful business practices bystanderism mental health unethical governance and the global refugee crisis this book applies a critical psychological perspective in synthesizing the social construction of heroism and wellbeing contributing to the development of global wellbeing indicators and measures      **Encyclopedia of Heroism Studies** , 2024-10-01 This reference work is an important resource in the growing field of heroism studies It presents concepts research and events key to understanding heroism heroic leadership heroism development heroism science and their relevant applications to businesses organizations clinical
