

Depending on how playful I am feeling I will sometimes introduce myself as an alchemist. There is a trivial explanation for this remark, which is all that I usually offer. In my role as a software developer I literally conjure up symbols from the aether and assemble them in an information hierarchy where they, in turn, control and manipulate metallurgic elements in the external world. While this formulation accurately describes my work, my identification with alchemy also communicates other layers of meaning, suggesting metaphysical transformations and esoteric perspectives.

Carl Jung understood alchemy as a symbolic system meant to represent the journey from a leaden consciousness to a golden one. When combined with the Hermetic principle which stipulates that everything in our inner world is mirrored and paralleled in the outer world, we arrive at an alternative understanding of alchemy that is both practical and meaningful. I sometimes imagine the medieval alchemists carving out small corners of the external world, typically through a craft, where they labored to introduce elegance, harmony, and beauty. According to alchemical principles, this work would necessarily entail a corresponding inner transformation.

This narrative may simply be a fanciful way of expressing the idea that if you love what you do you will become a better person for it. I love what I do. I am passionate and enthusiastic and embrace life's challenges with delight. It is difficult for me to distinguish between my work, studies, and hobbies, as together they are becoming my life-work.

Education and learning have always been a primary focus of my social and intellectual pursuits. Both of my parents were educators, and my schooling instilled the value of education for its own sake. Growing up in New York City and traveling extensively around the world has also greatly expanded my worldview. The exploration and exchange of knowledge continues to be an ongoing source of personal accomplishment.

My academic training has followed a strong analytical tradition, and I have cultivated a devotion to science, the scientific methodology, as well as emerging technology. This combination has translated well to the domain of software architecture and development, but my satisfaction in applying these talents is highly contingent upon the setting. I truly thrive when my work is directed towards constructive, meaningful goals with humanistic consequences.

At Princeton this focus was articulated through my dialogue with Cognitive Science, where questions concerning the nature and limits of knowledge, learning, and creativity shaped my studies. On the philosophical side I was

Thomas, 2024-04-22 This volume gathers the best previously unpublished and uncollected writings on Abraham Lincoln and Lincoln scholarship by one of his great biographers Benjamin P Thomas A skilled historian and a masterful storyteller himself Thomas was widely regarded as the greatest Lincoln historian of his generation With these essays he combines historical depth with narrative grace in delineating Lincoln s qualities as a humorist lawyer and politician From colorful tall tales to clever barbs aimed at political opponents Lincoln clothed a shrewd wit in a homespun backwoods vernacular He used humor to defuse tension illuminate a point put others at ease and sometimes for sheer fun From an early reliance on broad humor and ridicule in speeches and on the stump Lincoln s style shifted in 1854 to a more serious vein in which humor came primarily to elucidate an argument If I did not laugh occasionally I should die he is said to have told his cabinet and you need this medicine as much as I do Thomas brings his deep knowledge of Lincoln to essays on the great man s tumultuous career in Congress his work as a lawyer his experiences in the Courts and his opinions of the South A gracious survey of Lincoln s early biographers particularly Ida Tarbell stands alongside an appreciation of Harry Edward Pratt a key

figure in the early days of the Abraham Lincoln Association Thomas also assesses Lincoln's use of language and the ongoing significance of the Gettysburg Address This diverse collection is enhanced by an introduction by Michael Burlingame himself a leading biographer of Lincoln Burlingame provides a balanced portrait of Thomas and his circuitous path toward writing history

Paper Revolutions Sarah E. James, 2022-03-29 The experimental practices of a group of artists in the former East Germany upends assumptions underpinning Western art's postwar histories In *Paper Revolutions* Sarah James offers a radical rethinking of experimental art in the former East Germany the GDR Countering conventional accounts that claim artistic practices in the GDR were isolated and conservative James introduces a new narrative of neo avantgarde practice in the Eastern Bloc that subverts many of the assumptions underpinning Western art's postwar histories She grounds her argument in the practice of four artists who uniquely positioned outside academies museums and the art market as these functioned in the West created art in the blind spots of state censorship They championed ephemeral practices often marginalized by art history postcards and letters maquettes and models portfolios and artists books Through their lived modernism they produced bodies of work animated by the radical legacies of the interwar avant garde James examines the work and daily practices of the constructivist graphic artist painter and sculptor Hermann Glöckner the experimental graphic artist and concrete and sound poet Carlfriedrich Claus the mail artist concrete poet and conceptual artist Ruth Wolf Rehfeldt and the mail artist visual poet and installation artist Karla Sachse She shows that all of these artists rejected the idea of art as a commodity or a rarefied object and instead believed in the potential of art to create collectivized experiences and change the world James argues that these artists entirely neglected by Western art history produced some of the most significant experimental art to emerge from Germany during the Cold War
