

## 4. Discussion

The outcomes of this research have provided insight into the acoustic differences between the speech of COPD patients during exacerbation, COPD patients in stable condition and healthy controls. However, the results should be interpreted with caution due to the limitations of the current research. This chapter provides a reflection on the research process. The limitations and potential consequences of the design are discussed, as well as the implications for the interpretation of the results. The chapter ends with several recommendations for future research.
