4 pages | 774 words

The different beliefs, characteristics and looks of different ethnicities give more diversities in a place. The differences in cultures create color in every region. It allows people to understand each other and respect each other's differences and beliefs. On the other hand, these differences are emphasized too much that instead of being the key to a harmonious living, leads to gaps, differences and even fights (Singelis 4). In a certain region, diversity is inevitable especially in a place like the United States. The United States is the melting pot of many cultures.

Over the years, the country has become the destination of people from all over the world to achieve their dream. It seems that each state has its own taste of a different culture. Aside from that, immigrants have slowly settled in the country making it much more diversified. You wouldn't be surprised that there is a little China Town in every state. And that is probably one of their best attributes. It is also probably one of the reasons why a lot of people choose to settle here. They too think that they will reach their dreams by going to America. Despite the diversity that has evolved in our culture, there is still this distinct American taste that is present is the American culture. This distinction in each culture paves way for people to know each other.

(Singelis 152) Each culture, ethnicity is proud of its heritage. American families, for example, are very particular in implementing the American culture. American parents taught their children to love their country and have pride that we are Americans. This is, after all, the Land of the Free and the Home of the Brave. Our families teach us to be good Americans by passing on the value of citizenship, American holiday celebrations and traditions, leadership, entrepreneurship, competition and positive attitude. On the other hand, each culture is like that.

The media plays a huge role in exposing the differences in each culture. Movies, documentaries all feature distinct qualities of each culture. These differences are somehow exposed in wrong way. Most of the time, cultures are perceived based from what people hear about them. I really think that the differences in cultures and ethnicities are given too much emphasis without being aware of it. In effect, this led to conflicts and gaps between cultures. It is a sad fact that instead of being united especially in these times of crisis, we are still separated by our personal beliefs.

The media would be a really good help in promoting unity. It would help if similarities...
