Plain Paths and Dividing Lines Jessica Lauren Taylor, 2023-08-11 It is one thing to draw a line in the sand but another to enforce it In this innovative new work Jessica Lauren Taylor follows the Native peoples and the newcomers who built and crossed emerging boundaries surrounding Indigenous towns and developing English plantations in the seventeenth century Chesapeake Bay In a riverine landscape defined by connection Algonquians had cultivated ties to one another and into the continent for centuries As Taylor finds their networks continued to define the watery Chesapeake landscape even as Virginia and Maryland s planters erected fences and forts policed unfree laborers and dispatched land surveyors By chronicling English and Algonquian attempts to move along paths and rivers and to enforce boundaries Taylor casts a new light on pivotal moments in Anglo Indigenous relations from the growth of the fur trade to Bacon s Rebellion Most important Taylor traces the ways in which the peoples resisting colonial encroachment and subjugation used Native networks and Indigenous knowledge of the Bay to cross newly created English boundaries She thereby illuminates alternate visions of power freedom and connection in the colonial Chesapeake

Selling Antislavery Teresa A. Goddu, 2020-03-13 Beginning with its establishment in the early 1830s the American Anti Slavery Society AASS recognized the need to reach and consolidate a diverse and increasingly segmented audience To do so it produced a wide array of print material and visual media almanacs and slave narratives pincushions and gift books broadsides and panoramas Building on the distinctive practices of British antislavery and evangelical reform movements the AASS utilized innovative business strategies to market its productions and developed a centralized distribution system to circulate them widely In *Selling Antislavery* Teresa A Goddu shows how the AASS operated at the forefront of a new culture industry and by framing its media as cultural commodities made antislavery sentiments an integral part of an emerging middle class identity She contends that although the AASS s dominance waned after 1840 as the organization splintered it nevertheless created one of the first national mass markets Goddu maps this extensive media culture focusing in particular on the material produced by

AASS in the decade of the 1830s She considers how the dissemination of its texts objects and tactics was facilitated by the quasi corporate and centralized character of the organization during this period and demonstrates how its institutional presence remained important to the progress of the larger movement Exploring antislavery's vast archive and explicating its messages she emphasizes both the discursive and material aspects of antislavery's appeal providing a richly textured history of the movement through its artifacts and the modes of circulation it put into place Featuring more than seventy five illustrations *Selling Antislavery* offers a thorough case study of the role of reform movements in the rise of mass media and argues for abolition's central importance to the shaping of antebellum middle class culture
