Lessons To Be Learnt From The World's Great Icons Life Experiences. Bheki S.V. Ntshingila, 2016-11-23 The book is about the late Mr Nelson Mandela the unrepentant crusader and freedom fighter against the obnoxious apartheid regime in South Africa who became an instant toast of the entire world which is a reminder that in each person there is a seed of greatness expected to be discovered and to be used to make this world a better one for all who live in it instead of experiencing hatred and brutality What makes a person to succeed is not how bad she or he thinks but is high optimism thinking big willingness to learn from other s mistakes and life experiences There is a lot we can learn from Madiba s life experience and I don t doubt that the world is also learning something constructive or destructive from you If you are not constructive to others how would you be constructive to yourself Remember greatness is a phenomenon that could be associated with anyone with a positive mind Good better best never let it rest till your good is better and your better is best

Spear Paul S. Landau,2022-06-07 Spanning the years just before and just after Nelson Mandela s 1962 arrest this entirely fresh history of Umkhonto we Sizwe MK or Spear of the Nation and its revolutionary milieu brings to life the period in which Mandela and his comrades fought South Africa s apartheid regime not only with words and protests but also with bombs and fire

Year of Fire, Year of Ash Baruch Hirson,2016-06-15 We can say without fear of being contradicted by history that June 16 1976 heralded the beginning of the end of the centuries old white rule in this country Nelson Mandela Originally banned on publication by the apartheid government Year of Fire Year of Ash is an eye opening account of how in June 1976 20 000 school students faced down the tanks and guns of a vicious racist regime in a revolt that galvanized the black working class and became a pivotal turning point for the anti apartheid movement More than this the book overturns much of the conventional logic that served to explain the event at the time showing it was not simply a student protest but part of a wider uprising Released in this new edition to mark the fortieth anniversary Year of Fire Year of Ash provides an unparalleled insight into the origins and events of the uprising from its antecedents in the 1920s to its role in inspiring global solidarity against apartheid As South Africa experiences a new wave of popular discontent and as new forms of black consciousness come to the fore in movements around the world Baruch Hirson s book provides a timely reminder of the Soweto revolt s continued significance to struggles against oppression today

Publishing from the South Sarah Nuttall,Isabel Hofmeyr,2024-11-01 In 2022 Wits University Press marked its centenary making it the oldest most established university press in sub Saharan Africa While in part modelled on scholarly publishers from the global North it has had to contend with the constraints of working under global South conditions marginalisation within the university budgetary limitations small local markets unequal access to international sales channels and the privileging of English language publishing over indigenous languages This volume explores what the Press has achieved and what its modes of reinvention might look like In widening and deepening our understanding of the Press as an example of a global South scholarly publisher this volume asks how publishing can contribute to a broader understanding of Southern knowledge production Featuring contributions from scholars publishers and authors this multi voiced volume showcases the history of the Press s publishing activities over 100 years from documenting its evolution through book covers and giving credence to some of the leading black intellectuals and writers of the early 20th century and the success of those works in spite of their authors racial marginalisation to the role of women both in publishing and in the spaces afforded to women s writing on the Press s list The collection concludes with essays by contemporary authors who detail not only their experiences of working with Southern

publishers but also the politics and influences governing their decisions to choose the Press over a Northern publisher Publishing from the South shows the strategies deployed by the Press to professionalise Southern knowledge making and in the process demonstrating how university presses in the global South support the scholarly missions of their universities for both local and global audiences **Transforming Higher Education in Asia and Africa** Fred M. Educational Leadership in Becoming Nuraan Davids, Yusef Waghid, 2016-08-25 Educational Leadership in Becoming reconsiders educational leadership in its current forms and presents a more plausible form of educational leadership to contend with the complexities currently found in universities and schools Much of the literature in vogue concerning educational leadership ranges from transactional to transformative representations of the concept in relation to educational management and policy curriculum inquiry and pedagogical action The primary aim of this book is to revisit some of the dominant understandings of educational leadership and to offer an extended view of the practice along the lines of potentiality and becoming Davids and Waghid argue that all current forms of educational leadership are insufficient to enact responsible human action particularly when it comes to addressing the combined issues of globalisation and equitable redress and transformation whether in relation to leading schools or universities The primary objective of the book is to draw on the Agambian notion of becoming in order to show that an educational leadership in becoming is better placed to not only address the myriad challenges besetting education but to also enhance the potential of leadership in action The book addresses an international audience by analysing conceptions of transformative leadership and should be read by anyone who is interested in education and educational leadership as well as the impact of neoliberal agendas on education and society It should also appeal to those interested in the philosophy of education
