**The Future of Mobility** Liisa Ecola, Johanna Zmud, Kun Gu, Peter Phleps, Irene Feige, 2015-07 Researchers developed two scenarios to envision the future of mobility in China in 2030 Economic growth the presence of constraints on vehicle ownership and driving and environmental conditions differentiate the scenarios By making potential long term mobility futures more vivid the team sought to help decisionmakers at different levels of government and in the private sector better anticipate and prepare for change

**Migrant Care Workers** Karen Christensen, Ingrid Guldvik, 2016-04-22 In this beautifully argued book Karen Cristensen and Ingrid Guldvik provide a comparatively based insight to the historical context for public care work and show how migration policies general welfare and long term care policies including the cash for care schemes as well as cultural differences in values in the UK and Norway set the context for how migrant care workers can realise their individual life projects Through viewing migrants as individuals who actively construct their lives within the options and conditions they are given at any time they bring to the discussion an awareness of what might be called a new type of migrant one who is neither a victim of the divide between the global north and the global south nor someone leaving family behind but individuals using care work as a part of their own life project of potential self improvement

Injustice Danny Dorling, 2015-06-03 In the five years since the first edition of *Injustice* there have been devastating increases in poverty hunger and destitution in the UK Globally the richest 1% have never held a greater share of world wealth while the share of most of the other 99% has fallen in the last five years with more and more people in debt especially the young Economic inequalities will persist and continue to grow for as long as we tolerate the injustices which underpin them This fully rewritten and updated edition revisits Dorling's claim that Beveridge's five social evils are being replaced by five new tenets of injustice elitism is efficient exclusion is necessary prejudice is natural greed is good and despair is inevitable By showing these beliefs are unfounded Dorling offers hope of a more equal society We are living in the most remarkable and dangerous times With every year that passes it is more evident that *Injustice* is essential reading for anyone concerned with social justice and wants to do something about it

*How Politics Makes Us Sick* T. Schrecker, C. Bambra, 2015-05-19 Ted Schrecker and Clare Bambra argue that the obesity insecurity austerity and inequality that result from neoliberal or market fundamentalist policies are hazardous to our health asserting that these neoliberal epidemics require a political cure

Food Deserts and Food Insecurity in the UK Dianna Smith, Claire Thompson, 2022-08-09 This book examines the social inequalities relating to food insecurity in the UK as well as drawing parallels with the US Access to food in the UK and especially access to healthy food is a constant source of worry for many in this wealthy country Crises such as the COVID 19 pandemic have coincided with a steep rise in the cost of living meaning household food insecurity has become a reality for many more households This book introduces a new framework to examine the many influences on local level food inequalities whether they result from individual circumstances or where a person lives The framework will allow researchers new to the field to consider the many influences on food security and to support emerging research around different sub topics of food access and food security Providing a thorough background to two key concepts food deserts and food insecurity the book documents the transition from area based framing of food resources to approaches which focus on household food poverty and the rise of food banks The book invites researchers to acknowledge and explore the ever changing range of place based factors that shape experiences of food insecurity from transport and employment to rural isolation and local politics By proposing a new framework for food insecurity research and by drawing on real world examples this book will support academic and applied researchers as they work to understand and mitigate the impacts of food insecurity in local communities This book will be of great interest to students and scholars of food and nutrition security public health and sociology It will also appeal to food policy professionals and policymakers who are working to address social inequalities and improve access to healthy and nutritious food for all

*The Oxford Handbook of Social Influence* Stephen G. Harkins, Kipling D. Williams, Jerry M. Burger, 2017-07-07 The study of social influence has been central to social psychology since its inception In fact research on social influence predated the coining of the term social psychology Its influence continued through the 1960s when it made seminal contributions to the beginning of social psychology's golden age However by the mid 1980s interest in this area waned while at the same time and perhaps not coincidentally interest in social cognition waxed Now the pendulum is swinging back as seen in growing interest in non cognitive motivational accounts The Oxford Handbook of Social Influence will contribute to a resurgence of interest in social influence that will restore it to its once preeminent position Written by leading scholars the chapters cover a variety of topics related to social influence incorporating a range of levels of analysis intrapersonal interpersonal and intragroup and both source the influencers and target the influenced effects The volume also examines theories that are most relevant to social influence as well as social influence in applied settings The chapters contribute to the renaissance of interest in social influence by showing that it is time to reexamine classic topics in social influence by illustrating how integrations elaborations that advance our understanding of social influence processes are now possible by revealing gaps in the social influence literature and by suggesting future lines of research Perhaps the most important of these lines of work will take into account the change from traditional social influence that occurs face to face to social media mediated influence that is likely to characterize many of our interactions in the future
