Morris, 2011-12-30 A practical hands-on guide to building your mastery of candlestick charting and analysis. Candlestick charting has become one of today's most popular technical analysis tools for both individual and professional investors. And it's much easier than you probably think. In fact, creating a candlestick chart demands no more information than traditional charting requires. With candle pattern analysis, the payoff is a deeper look into the minds of investors and a clearer view of supply and demand dynamics. In this companion volume to his bestselling Candlestick Charting Explained, Gregory L. Morris delivers hands-on knowledge you need to make candlestick charting and analysis a key element of your portfolio building strategy. With this book, you will be able to identify candle patterns and quickly see what traders and investors are thinking. Use reversal patterns to enter or reverse your positions. Identify continuation patterns to establish additional positions. Utilize charting software to recognize patterns automatically. Packed with study questions, data tables, diagnostic tools, terminology, sample charts, and market analyses, Candlestick Charting Explained Workbook helps you speed up the learning process and ramp up the profits. **Candlestick Charting Explained, Chapter 10 - Candlesticks for Traders** Gregory Morris, 2006-03-27 With this chapter from Candlestick Charting Explained, you'll discover this popular tool in technical analysis. Corbitt,2012-11-27 Presents investors with a step by step self learning guide to mastering technical analysis of price movement in securities derivatives or currencies Page 4 of cover **Price Action Trading** Bill Eykyn,2003-01-09 Extract from the Preface 1 What the book covers This book is about day trading Using the price action itself rather than any of the usual array of indicators based on it The US 30 year Treasury Bond Futures is the favoured instrument the T Bonds as they are commonly called There are good reasons for choosing this instrument to learn to trade one being that they do not require a detailed knowledge of bonds themselves The other attractions whether you are a beginner or a seasoned veteran are to do with liquidity range behaviour patterns and the price action displayed at the key support and resistance points it encounters Most days the T bonds offer trading opportunities which can be taken within a money management environment that can give you an edge for profit and this book has been designed to show you how to do just that Fully illustrated with charts taken from a live trading screen and displayed in exactly the way you would have seen them for yourself on your computer monitor What you see is not just what happened in detail but also clear evidence of just how you could have profited yourself from each trading situation 2 Who the book is for This book has been written for anyone wishing to day trade using a discretionary method rather than a mechanical system It is a learning tool which should commend itself to the experienced trader as much as to someone new to this business Certainly I hope that any raw recruit would find it an easy read even if it took a while longer to digest the subject matter as a whole 3 How the book is structured The seasoned trader will probably start by skip reading to see if he can cut to the chase quickly The less experienced will immediately see from the detail of the charts alone that there is a great deal of info Guppy Trading Daryl Guppy,2011-04-27 A compilation of the very best of Daryl Guppy Daryl Guppy has been one of

Australia's foremost experts on share trading and charting for almost 20 years. His first book *Share Trading* is still a must read for people wanting to learn about the market and is widely accepted as the best selling trading book ever in Australia. Guppy Trading contains detailed analysis of many topics including making effective trades based on news events and informed trading, advanced application of the Guppy Multiple Moving Average to assess the true strength of a trend, how to establish and improve trade entry, exit and stop loss points in volatile markets, effective trading of international markets, safely integrating derivatives to boost portfolio returns. Guppy Trading contains 23 of the most enduring and important chapters from Guppy's earlier books, completely revised and combines them with 10 entirely new chapters. These new chapters detail new trading methods and instruments that have been developed to create additional opportunities and ensure survival in interconnected modern markets. This comprehensive compendium is critical reading for traders looking to maximise their returns.

Morris, 1992 **Investing with the Trend** Gregory L.

Morris, 2013-12-31 *Investing with the Trend* provides an abundance of evidence for adapting a rules based approach to investing by offering something most avoid and that is to answer the why one would do it this way It explains the need to try to participate in the good markets and avoid the bad markets with cash being considered an asset class The book is in three primary sections and tries to leave no stone unturned in offering almost 40 years of experience in the markets Part I The focus is on much of the misinformation in modern finance the inappropriate use of Gaussian statistics the faulty assumptions with Modern Portfolio Theory and a host of other examples The author attempts to explain each and offer justification for his often strong opinions Part II After a lead chapter on the merits of technical analysis the author offers detailed research into trend analysis showing how to identify if a market is trending or not and how to measure it Further research involves the concept of Drawdown which the author adamantly states is a better measure of investor risk than the oft used and terribly wrong use of volatility as determined by standard deviation Part III This is where he puts it all together and shows the reader all of the steps and details on how to create a rules based trend following investment strategy A solid disciplined strategy consists of three parts a measure of what the market is actually doing a set of rules and guidelines to tell you how to invest

based upon that measurement and the discipline to follow the strategy Candlestick Charting Explained, Chapter 1 - Introduction Gregory Morris, 2006-03-27 With this chapter from Candlestick Charting Explained you ll discover this popular tool in technical analysis It features updated charts and analysis as well as new material on integrating Western charting analysis with Japanese candlestick analysis grouping candlesticks into families detecting and avoiding false signals and more Additional information and insights present different interpretations of candlesticks based on intraday instead of end of day events and action improving signal reliability
