2019): William Shurtleff,Akiko Aoyagi,2019-04-27 Grid Planning in the Urban Design Practices of Senegal Liora Bigon,Eric Ross,2020-01-01 This book is the first to trace the genealogy of an indigenous grid pattern settlement design practice in Africa and more specifically in Senegal It does so by analyzing how the precolonial grid plan design tradition of this country has become entangled with French colonial urban grid planning and with present day hybrid planning cultures By thus it transcends the classic precolonial colonial postcolonial metahistorical divides This properly illustrated book

consists of five chapters including an introductory chapter historiography theory and context and a concluding chapter The chapters text has both a chronological and thematic rationale aimed at enhancing Islamic Studies by situating sub Saharan Africa s urbanism within mainstream research on the Muslim World and at contributing directly to the wider project of de Eurocentrizing urban planning history by developing a more inclusive truly global urban history *Handbook of African Development* Tony Binns, Kenneth Lynch, Etienne Nel, 2018-04-27 This handbook presents an extensive new overview of African development past present and future It addresses key core themes and topics that are pertinent to the continent s development including sections on history health and food politics economics rural and urban development and development policy and practice The volume draws on the expertise of over 60 of the world s leading scholars to provide a detailed and up to date analysis of the key opportunities and challenges that confront Africa and how such issues are being addressed Arranged by key themes the handbook provides not only a historical understanding of the past but also political perspectives on the future The chapters provide critically informed analyses of their topics by drawing upon the latest conceptual viewpoints and applied experiences in Africa in the form of case studies to offer a comprehensive examination of the opportunities challenges key debates and future prospects This handbook is an invaluable state of the art overview and reference concerning many different aspects of Africa s development which will be of interest to academics in all fields of African studies and also academics and students working in cognate disciplines such as development studies geography history politics and economics **African Philosophy and Environmental Conservation** Jonathan

Chimakonam, 2017-10-04 African Philosophy and Environmental Conservation is about the unconcern for and marginalisation of the environment in African philosophy The issue of the environment is still very much neglected by governments corporate bodies academics and specifically philosophers in the sub Saharan Africa The entrenched traditional world views which give a place of privilege to one thing over the other as for example men over women is the same attitude that privileges humans over the environment This culturally embedded orientation makes it difficult for stake holders in Africa to identify and confront the modern day challenges posed by the neglect of the environment In a continent where deep rooted cultural and religious practices as well as widespread ignorance determine human conduct towards the environment it becomes difficult to curtail much less overcome the threats to our environment It shows that to a large extent the African cultural privileging of men over women and of humans over the environment somewhat exacerbates and makes the environmental crisis on the continent intractable For example it raises the challenging puzzle as to why women in Africa are the ones to plant the trees and men are the ones to fell them Contributors address these salient issues from both theoretical and practical perspectives demonstrating what African philosophy could do to ameliorate the marginalisation which the theme of environment suffers on the continent Philosophy is supposed to teach us how to lead the good life in all its forms why is it failing in this duty in Africa specifically where the issue of environment is concerned This book which trail blazes the field of African Philosophy

and Environmental Ethics will be of great interest to students and scholars of Philosophy African philosophy Environmental Ethics and Gender Studies
