Wacker, 2021-02-03 Baroque Tendencies in Contemporary Art is a collection of essays by an international cadre of scholars addressing current trends within the field of contemporary art and how artists and architects reflect upon past traditions and fold them into the present Often referred to as the Neo Baroque scholarship on this topic first emerged in the 1980s with the publication of several notable studies in France but not translated into English until the 1990s in addition a number of recent exhibitions have focused on contemporary responses to the Baroque The Baroque and the Neo Baroque are frequently defined as having a propensity for instability seriality reflexivity fluidity and spectacle This is perhaps partly why in the millennial period there is so much interest in the Baroque we are seeking ways to find parallels between the art of then and the art of our own diverse

pluralistic culture This book provides context for how contemporary artists meet and deal with the Baroque both formally and conceptually Among others it provides discussions of the work of American artists John Currin Jeff Koons Frank Stella Lisa Yuskavage American architect Frank Gehry European artists Lucian Freud Jenny Saville Emilio Vedova Latin American artists Monica Castillo Raphael Cauduro Yishai Judisman and New Zealand artists Richard Reddaway and Joanna Langford

Visual Culture Richard Howells, Joaquim Negreiros, 2019-03-05 This is a book about how to read visual images from fine art to photography film television and new media It explores how meaning is communicated by the wide variety of texts that inhabit our increasingly visual world But rather than simply providing set meanings to individual images Visual Culture teaches readers how to interpret visual texts with their own eyes While the first part of the book takes readers through differing theoretical approaches to visual analysis the second part shifts to a medium based analysis connected by an underlying theme about the complex relationship between visual culture and reality Howells and Negreiros draw together seemingly diverse methodologies while ultimately arguing for a polysemic approach to visual analysis The third edition of this popular book contains over fifty illustrations for the first time in colour Included in the revised text is a new section on images of power fear and seduction a new segment on video games as well as fresh material on taste and judgement This timely edition also offers a glossary and suggestions for further reading Written in a clear lively and engaging style Visual Culture continues to be an ideal introduction for students taking courses in visual culture and communications in a range of disciplines including media and cultural studies sociology and art and design

Partisan Canons Anna Brzyski, 2007-10-08 Case studies that counter the idea of a transcendent art canon by demonstrating that the content of any and every canon is historically and culturally specific
