

It is important to set up the General OM Monitor in an area where it can continuously measure vital signs and transmit results. If you will be using any accessory devices, make sure that there will be enough room for you to attach them without any difficulty. To determine a suitable location, consider the following:

Place the monitor on a flat, stable, and uncluttered surface, near a closed window or an outside wall. Be certain the monitor is easily accessible, and that a bed, chair, or other seating is available. Make sure that pins can easily attach to any available facilities.

Find a **PERMANENT** spot for the scale where you can easily stand on it. Be certain that the scale is placed on a solid, flat surface that provides adequate stability. The scale should not be moved.

When you receive your Genie® D80 Monitor, carefully remove each piece of equipment from the box. Save the cartons and packing materials in case you need to return any of the contents. As you inventory the contents of the box, check each piece of equipment for damage.

Your package should include the following items:

- General IM Monitor
- Scale and scale cable
- Blood pressure cuff
- Blood pressure hose
- Cholesterol (LpOL) Finger Sensor (optional)
- Phone cord and duplex jack
- AC adapter (power supply)
- Power strip

Be sure to read the General Use Clinical Guide before using your monitor. The manual contains important instructions, warnings, and cautions that should be reviewed before use.
