police officers duties become routine though the potential for danger is always present The duties of the officer require them to enforce laws and to control the illegal actions of certain citizens Survival techniques if properly applied provide the officer an opportunity to overcome the resistive behavior of subjects These techniques also provide officers with self confidence which is needed to win When an officer uses force peers the public the media the government and the world review that actions If the officer applies inappropriate force it reflects poorly on the individual and gives a non professional appearance to the entire force The officer is subject to legal limitations When the officer is faced with a violent situation it is required that he make decisions in a fraction of a second He may have to justify his actions in court Therefore proper defensive tactics training provides the officer with the tools required not only to apply the proper techniques but also to decide the proper level of force necessary to overcome resistance This will obviously enhance officer survivability insure proper performance during the situation and justification in court Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement

of the control process The subject needs to know what the officer desires him/her to do In addition verbal and physical de-escalation is always preferred and should be attempted if applicable In training safety is paramount Perfect practice makes perfect Proper technique is more important than the speed of technique application Proficiency will increase the speed proportionally Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
