The Power of VISUAL STORYTELLING

We are in the age of INFORMATION OVERLOAD

The average person's attention span decreased to **8 SECONDS** from 12 seconds in 2000. (shorter than that of a goldfish)

According to the journal Science, **we have to process 5X MORE** information today than in 1986.

YEAR 1986 | YEAR 2015

HOW CAN WE THEN CAPTURE THE HEARTS OF OUR AUDIENCE?

VISUALS + STORIES

WHY USE VISUALS?

WE REMEMBER MORE W/ VISUALS

Hear a piece of info, and three days later you'll remember 10%, add a picture & you'll remember 65%

90% of information transmitted to the brain is visual.

visuals are processed **60,000X FASTER** in the brain than text.

65% of us are visual learners

WHY USE STORIES?

STORIES ARE EASIER TO RECALL

because descriptive tales can activate up to 7 areas of the human brain.

Emotions drive 80% of the choices we make, while practicality & objectivity only represent about 20% of decision-making.

5% of people cited a statistic, but **a whopping 63%** remembered the story.
