Investigations in Engineering Nenad Mitrovic,Goran Mladenovic,Aleksandra Mitrovic,2020-09-04 This proceedings book is a collection of high quality peer reviewed research papers presented at the International Conference of Experimental and Numerical Investigations and New Technologies CNNTech2020 held at Zlatibor Serbia from 29th June to 2nd July 2020 The book discusses a wide variety of industrial engineering and scientific applications of the engineering techniques Researchers from academia and industry present their original work and exchange ideas experiences information techniques applications and innovations in the field of mechanical engineering materials science chemical and process engineering experimental techniques numerical methods and new technologies Manufacturing in Digital Industries J. Paulo Davim,2020-07-06

Digital Industry can provide the framework for examining the challenges of future production technology This book describes some of the various aspects that can and may influence future manufacturing Computational intelligence techniques cyber physical systems virtual and cloud based manufacturing and man machine interaction are studied and some of the most recent research completed by international experts in industry and academia is considered Case studies provide practical solutions Coordinate Metrology Jerzy A. Sladek,2015-12-22 This book focuses on effective methods for assessing the

accuracy of both coordinate measuring systems and coordinate measurements It mainly reports on original research work conducted by Sladek s team at Cracow University of Technology s Laboratory of Coordinate Metrology The book describes the implementation of different methods including artificial neural networks the Matrix Method the Monte Carlo method and the virtual CMM Coordinate Measuring Machine and demonstrates how these methods can be effectively used in practice to gauge the accuracy of coordinate measurements Moreover the book includes an introduction to the theory of measurement uncertainty and to key techniques for assessing measurement accuracy All methods and tools are presented in detail using suitable mathematical formulations and illustrated with numerous examples The book fills an important gap in the literature providing readers with an advanced text on a topic that has been rapidly developing in recent years The book is intended for master and PhD students as well as for metrology engineers working at industrial and research laboratories It not only provides them with a solid background for using existing coordinate metrology methods it is also meant to inspire them to develop the state of the art technologies that will play an important role in supporting quality growth and innovation in advanced manufacturing **Innovative Manufacturing Engineering and Energy** Angelos Markopoulos,2024-12-15 The
