Elementary Students Write Topic Sentences:

The Simple 6: A Writing Rubric for Kids Kay Davidson, 2009 Quality Instruction and Intervention for Elementary Educators Brittany L. Hott, Pamela Williamson, 2024-10-02 Effective teaching starts with quality instruction that most students respond well to. However, about 35% of students will require specialized and more intensive instruction to meet academic and behavioral standards. Both students with exceptionalities who are eligible to receive special education and related services and students who are placed at risk due to circumstance require, deserve, and are legally entitled to quality intervention. *Quality Instruction and Intervention for Elementary Educators* offers an accessible resource for educators interested in evidence-based strategies to ensure all students have access to an excellent education. Two dedicated chapters authored by leading content and strategy experts in the field are devoted to content areas. The first chapter focuses on quality instruction with academic subject matter specialists as lead authors with interventionists supporting. The second chapter focuses on effective intervention with the interventionists taking the lead author roles and academic subject matter specialists supporting. Between the two chapters is a dialogue between the teams of authors bridging instruction and intervention. This unique approach bridges the gap between quality instruction and effective intervention, an often overlooked component of teacher education. The book also includes dedicated chapters on the integration of instructional technology and executive functioning. After reading the book, educators will be able to describe the components of effective instruction and intervention in each of the content areas, access empirically validated materials, and locate resources for continued learning.

Writing in Elementary School Social Studies Barry K. Beyer, Robert Gilstrap, 1982 This book is designed to provide elementary school teachers with information, suggestions, and models for using writing in the social studies from early primary to middle grades. There are four major chapters to the book. Chapter I is titled *Research on the Teaching of Writing*. The articles in this first section move from a survey of research in writing to a survey of classroom practice in the use of writing in elementary school social studies and finally to a specific classroom study that integrates the two areas and presents specific implications for the study and teaching of writing. Chapter II is titled *Developing Readiness in Writing*. The first two articles stress two important aspects of a classroom environment that nurtures and supports student writing. The remaining five articles describe techniques such as interviewing, exploring the past, and brainstorming that teachers can use to initiate writing. The title of Chapter III, which contains seven articles, is *Using Writing to Learn Social Studies Content*. The articles describe ways in which writing can be used to help students learn social studies information or develop social studies generalizations. Another describes how writing can be used to conduct simulated field trips in the social studies classroom. The title of Chapter IV is *Combining Writing with Social Studies*. Discussed are three essential supports for a successful program: a detailed curriculum guide, inservice teacher training, and cooperative teacher administrator assessment procedures. The book also cites related resources in the ERIC system. Author RM **Divergent Thinking for Advanced**
