Clark,2007-01-01 Compass of Society rethinks the French route to a conception of commercial society in the seventeenth and eighteenth centuries Henry C Clark finds that the development of market liberalism far from being a narrow and abstract ideological episode was part of a broad gauged attempt to address a number of perceived problems generic to Europe and particular to France during this period In the end he offers a neo Tocquevillian account of a topic which Tocqueville himself notoriously underemphasized namely the emergence of elements of a modern economy in eighteenth century France and the place this development had in explaining the failure of the Old

Regime and the onset of the Revolution Compass of Society will aid in understanding the conflicted French engagement with liberalism even up to the twenty first century      **Italian Literature since 1900 in English Translation** Robin
