[CPP Exam ExamFOCUS Study Notes and Review Questions for the Certified Packaging Professional 2015 Edition](#) ExamREVIEW, 2014-12-14. The CPP multiple choice exam has a coverage which is highly extensive in fact so extensive that I wouldn't recommend taking the exam until you are fully drilled on the relevant topics. You know what I personally think. Soroka's book is excellent; it covers all the essential information that you need to know to tackle most exam topics plus many more practical information for on the job use outside of the exam, all included in a 500 page text book. Many CPP candidates are experienced professionals who have been in the field of packaging for years; that they know most of the practical how-tos and all they need is to learn the principles, concepts and science that are behind the practical techniques. 500 pages worth of information is quite overwhelming for these busy professionals. Some tried to have their focus on the review questions for each chapter and as a result they found themselves missing quite many items that were in fact not covered by the chapter review questions. We believe that you need to get yourself truly familiar with the most important information by going through sufficiently focused revision. This is where we fill the gap. You may think of our product as the unofficial supplement to Soroka's book or you may view it as a standalone module with a focus on building up your exam readiness. For the purpose of exam preparation you need to plan your study into a 3 stage process. At the first stage you review the official Soroka text. Give yourself one to two months to go through the text chapter by chapter. Then at the second stage you go through the chapter review questions. Finally at the third stage you use our ExamFOCUS study notes to drill on the key topics for the best possible knowledge coverage prior to taking the exam. As an effective learning aid implemented in the format of study notes, the ExamFOCUS CPP Study Notes package is designed to present information in an easy to understand conversational format. Notes are well written, technically accurate and completely representative of the key information covered by the exam domains.
