Part IV Short essay questions

- 1. The creature first learned through discovery by and watching others. He learned that fire burned by touching it and how to gather food by watching villagers. Subsequently, he observed the De Lacey family where he learned about love, sorrow, and poverty by watching the family interact. When Victor arrived at the cottage, the De Lacey family taught him English and how to read, which is how the creature learned to speak and read. He later finds books including Paradise Lost in the woods from which he learned about religion and began to question his own creation.
- 2. The novel includes themes of the cost of ambition. This is evident through Frankenstein's blind pursuit of reversing death. Robert Walton also demonstrates the cost of ambition as he seeks to cross the Arctic ocean. However, unlike Frankenstein, he does not let his ambition rule him and he ends his journey when it becomes too dangerous and returns to London and his sister.
