Landscape in American Guides and View Books Herbert Gottfried, 2013 *Landscape in American Guides and View Books* Visual History of Touring and Travel is vested in the American relationship to landscape and the role guidebooks and view books played in touring and travel experiences including immigration Early in the history of the republic the relationship to landscape turns visual that is landscapes inspire artistic responses in the form of written descriptions and visual representations The predominant element is the scene From the 1820s on scenic thinking within an emerging industrial economy characterizes a major cultural and social development As immigration increases within the country and from abroad publishers and trade groups create souvenir guidebooks and view books to facilitate the movement of people and to encourage economic expansion and tourism Guide and view book analysis centers on pictures of landscape transformations and includes the cultural basis of scenes changing from pastoral and picturesque expressions to the documentation of managed views The general acceptance of

managed views as replacements for romantic ones illustrates a commitment to landscapes that denote utility and the influence of commercial and industrial urban centers on American life. Guidebook and view book imagery composed of durable schemas promotes visual thinking across social classes and time. The primary medium for souvenirs is the photograph which printing methods like photolithography transform into printed products. The visual history of touring and travel is part of America's first visual culture as well as the social formation of landscape, the emergence of a collective vision among souvenir producers and consumers and the role visual information plays in landscape commentary which is the literary context for printed souvenirs.
