Automatic Watch Maintenance

Although automatic mechanical watches do not have batteries, some easy-to-follow maintenance is necessary for continued and long-lasting good use. Satisfying automatic watches depend on the movement of the arm to operate and do require some winding, even if you wear your watch on a daily basis. If you wear your Automatic watch everyday, it is best to wind it once, every two weeks to keep the wheels in motion and oil fluid. Simply wind the crown (the same knob used to adjust the time and date) until you meet slight resistance. If you do not wear your Automatic watch everyday, you should try to wind it at least twice a week to ensure continuous operation, as well as keeping the inside mechanism in complete running order. Try to wind your mechanical watch at the same time every day. This is extremely beneficial for the mechanism. You may want to make it a routine, winding it every morning when you wake up. Avoid setting the day and/or date (if your watch has these functions) at night. The day-date mechanism is activated during the nighttime hours and could be disrupted if set at this time. And, always avoid wearing your mechanical watch, if you are playing a sport requiring continuous arm motion (e.g. tennis, baseball, golf), since continuous arm motion could damage the movement.

Sizing Your Watch

Fitting Your Wrist - Removing Links

If you have ordered a watch with a metal bracelet, there is a good chance you will have to have one or more links removed to fit your wrist properly. This can only be done with the watch in present. That is why we ship all watches unsized. We suggest you take your watch to a reputable local jeweler for sizing. (Expect to pay a nominal fee (around \$5) for this service. Do not attempt to size your own watch! You may damage or scratch the watch and bracelet. The liability is yours - WorldofWatches.com will not accept a scratched or damaged watch for return. Hold on to Them After the links are removed, keep these links! Occasionally, a watch bracelet may break. It is a lot easier (and cheaper!) to have the bracelet repaired with your own links than ordering and shipping new ones. (Please remember that once you have your watch sized, you may NOT return it for a cash refund or exchange!)
