

# 7 PHASES OF INCIDENT RESPONSE

1

## Preparing for Potential Incidents

Define clear communication channels, implement response checklists, and provide staff with quality cybersecurity training.

2

## Identifying and Assessing Threats

Assess whether an event is a cyber-attack, evaluate its intensity, and classify the cybersecurity incident based on the nature of the attack.

3

## Containing the Impact

Isolate the affected systems and impede the incident from propagating further.

4

## Investigating and Eradicating Threats

Make sure the threat is no longer present in the organization's network by investigating the root cause of the incident and eradicating any threats from the system.

5

## Recovering and Restoring Operations

Restore the affected systems to their pre-incident state to get your business back up and running as normal.

6

## Learning from the Incident

Document everything that occurred during the incident and the response. Use this information to recognize areas for improvement in the organization's security posture and incident response plan.

7

## Ongoing Testing and Evaluation

Strengthen your security posture by continuously testing and evaluating your incident response plan to ensure that it remains current and effective in the face of ever-evolving cyber threats.
