Meditation and the Evolution of Cosmic Consciousness Don Ayre, B.A., B.S.W., M.S.W., 2011-03-11 This book is about the little known fact that there are four different kinds of meditation Witness Meditation Transformative Meditation

Discursive Meditation and Transcendental Meditation More often each kind of meditation is promoted and practiced apart from the others But combined as a process they lead to cosmic consciousness and more loving attitude toward one s self and planet Earth Instead of the violence of interpersonal competition and environmental exploitation so prevalent today the ideals of peace justice and harmony can become the new reality given a more integrated approach to life s material intellectual emotional and spiritual realms of experience But in spite of the enormous advances in technology we are still caught up in unwinnable wars that cost lives and resources of all the participants we are still confronted by the injustices of social and economic controls that have most recently resulted in meltdowns and we are still faced with that seemingly unsolvable environmental problems that are plaguing our planet today Seemingly the leadership of our global community is failing us So it s up to us as individuals Meditation and the Evolution of Cosmic Consciousness is not a how to book however It is an attempt to identify the process in a way that can be imitated To do so Don Ayre has reviewed his private practice as a family and child therapist and the writings of a number of historical figures that he recognizes as great minds for evidences of cosmic consciousness that can be used to build a living model Ayre invites his readers to examine their uses of meditation and the writings of their favorite authors to contribute their thoughts and ideas that will assist with the evolution of cosmic consciousness
