## **Igbc Green Factory Building Abridged Reference Guide:**

*IGBC Green Factory Building*, 2009      *Green Building Guidance* Karthik Karuppu, NVICO, 2019-02-07 Conventional buildings don't have sustainability because of the approach of designing and the construction method. The total energy consumption calculates for all buildings account for up to 40% in India and commercial and residential real estate combined will account for more than 2000 TWH of energy consumption by 2030. India has an expected energy deficit of around 12% which is one of the major hurdles for the government. This will result in a further increase in electrification in all areas. Green buildings utilize fewer resources and are healthier to live in. They offer significant operational cost savings compared with conventional buildings. In effect, green homes can expect a 14 percent savings in operational costs over five years for new green buildings and 13 percent savings in operational costs over five years for green retrofit and renovation projects. Building owners also report that green buildings, whether new or renovated, give a 7 percent increase in asset value over conventional buildings.

Introduction to Green Buildings & Built Environment IGBC, 2023-02-01 To disseminate the knowledge on green concepts to the students, IGBC has developed a comprehensive and holistic book, *Introduction to Green Buildings & Built Environment*. The objective of this book is to encourage and inspire budding young professionals to take the path of sustainability and carry forward the baton for a greener future. Contents: 1 Site Selection and Planning 2 Water Management 3 Energy Efficiency 4 Sustainable Building Materials 5 Indoor Environmental Quality

Book Review: I am delighted to note that IGBC has launched the Green Education Programme which would facilitate Academia-Industry linkage on green concepts. This book on *Introduction to Green Buildings & Built Environment* which is released as part of the Green Education initiative of IGBC will enable students to be industry-ready. The book will also equip students to carry forward the National agenda on green and reach newer heights.

Anil D Sahasrabudhe, Chairman, All India Council for Technical Education (AICTE)

As we march ahead in facilitating a greener India and Net Zero Mission goals, we need more qualified professionals who can facilitate green building projects in the country. Launch of the IGBC Green Education Programme and this book on *Introduction to Green Buildings & Built Environment* are important steps in sowing the seeds of green and igniting the minds of the younger generations.
