Law A Very Short Introduction

RM Cervero

Law A Very Short Introduction:

Law Raymond Wacks, 2015 Law is at the heart of every society protecting rights imposing duties and establishing a framework for the conduct of almost all social political and economic activity Despite this the law often seems a highly technical perplexing mystery with its antiquated and often impenetrable jargon obsolete procedures and endless stream of complex statutes and legislation In this Very Short Introduction Raymond Wacks introduces the major branches of the law describing what lawyers do and how courts operate and considers the philosophy of law and its pursuit of justice freedom and equality In this second edition Wacks locates the discipline in our contemporary world considering the pressures of globalization and digitalisation and the nature of the law in our culture of threatened security and surveillance ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable The Rule of Law Aziz Z. Huq, Frank and Bernice J Greenberg Professor of Law Aziz Z Huq, 2024 This very short introduction sets out the origins and development of an English language debate centered around the phrase rule of law It aims to explore the distinctive ethical contribution offered by various thinkers to this specific phrase first theorized by the English scholar A V Dicey while largely setting aside how the same questions are framed and resolved in other traditions The book opens by canvassing the classical and early modern sources upon which Dicey and his successors explicitly drew It then explores the idea of Dicey who it flags as the first self conscious theorist of the rule of law It then recounts his immediate successors These include a heterogeneous range of thinkers such as Friedrich Hayek Lon Fuller Ronald Dworkin and Tom Bingham With this genealogy in hand the book then reflects the important question of why the rule of law in some version or other persists that is why do actors with the power to cast aside the rule of law not do so The book next turns to the ways in which the term rule of law has diffused across borders making it a geopolitical phenomenon Specifically the phrase was taken toward the end of the twentieth century across borders by actors as diverse as the World Bank Singapore and the Chinese Communist Party Finally the book closes by examining the way that the rule of law tradition can be challenged both as a matter of theory and practice Philosophy of Law: A Very Short Introduction Raymond Wacks, 2006-05-18 The concept of law lies at the heart of our social and political life shaping the character of our community and underlying issues from racism and abortion to human rights and international war But what actually is law A set of naturally occurring moral principles or simply rules agreed by a particular society What is a right and what rights should people actually have Is law really colour blind and gender blind Can the law truly tell us whether gay marriages are immoral what's wrong with racism or whether we should go to war Revealing the intriguing and challenging nature of legal philosophy with clarity and enthusiasm Raymond Wacks explores the notion of law and its role in our lives Referring to key thinkers from Aristotle to Rawls Bentham Dworkin H L A

Hart and Derrida he looks at the central questions behind legal theory that have fascinated lawyers and philosophers and anyone who ever wondered about law's relation to justice morality and democracy

ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Common Law: a Very Short Introduction Joshua Getzler, 2016-05-01 The common law began as England's national system of adjudication for correcting wrongs, protecting rights, and enforcing due administration of government in the Royal courts. Its origins can be traced back to 11th-century England and was soon exported to the rest of Britain and ultimately to the far-flung reaches of the British Empire. The common law has therefore enjoyed nearly a thousand years of development and elaboration in many lands influenced by but separate from the systems of continental Europe with its own distinctive procedures of pleading, fact-finding, and remedies. It developed laws that govern much of today's world of trade, business, and finance; it defended ideas of personal liberty and equality before the law; and it helped establish principles of constitutional, legally limited government and administration. Thus, the common law provides an original and crucial strand in the history of social organization, politics, and culture around the world. In this Very Short Introduction, Joseph Getzler explains the evolution of the common law. The main institutions of the common law are described: courts, procedures, judges, and juries, and means of reporting, analysing, and learning the law; and the main categories of common law rights and duties are delineated: property, contract, and tort; equitable claims; unjust enrichment; crime; constitutional and public law; and civil liberties.

American Legal History G. Edward White, 2013-11-21 This Very Short Introduction demonstrates the pivotal role of law in American life. Chapters focus on the legal history of Indian tribes, slavery, property rights, the relationship of law to entrepreneurial activity, crime, and punishment, domestic relations, civil injuries, and tort law, as well as legal education and the legal profession.

International Law Vaughan Lowe, 2015-11-26 Interest in international law has increased greatly over the past decade, largely because of its central place in discussions such as the Iraq War and Guantanamo, the World Trade Organisation, the anti-capitalist movement, the Kyoto Convention on climate change, and the apparent failure of the international system to deal with the situations in Palestine and Darfur, and the plights of refugees and illegal immigrants around the world. This Very Short Introduction explains what international law is, what its role in international society is, and how it operates. Vaughan Lowe examines what international law can and cannot do, and what it is, and what it isn't, doing to make the world a better place. Focussing on the problems the world faces, Lowe uses terrorism, environmental change, poverty, and international violence to demonstrate the theories and practice of international law, and how the principles can be used for international co-operation.

Thinking Critically About Law Amy R. Codling, 2025-06-02 You arrive at university to embark upon your journey to think like a lawyer, but is simply knowing the law enough to gain you the best marks? What do you need to do exactly to achieve a

first class law degree and promising professional career For top marks what do your lecturers mean when they say you need to deepen your critical analysis to answer assessment questions When should you put your own viewpoints forward When and how should you draw upon the work of others What do your examiners mean when they give you feedback saying that your work is too descriptive This book explores what it means to think critically and offers practical tips and advice for students to develop the process skill and ability of thinking critically while studying law as well as beyond that in the workplace The second edition of Thinking Critically About Law utilises art music poetry and prose to explore essential questions about studying law and what it means to think critically offering practical tips and advice for students looking to develop critical thinking skills in relation to law Updates reflect seismic changes that have taken place both in law teaching and in society more generally These include the Covid 19 pandemic social movements sparked by the murders of Sarah Everard and George Floyd moves to decolonise the law curriculum and the introduction of the SQE qualification There is also an innovative foreword by Professor Russell Sandberg a new chapter on the topic of how to think critically during discussions a new section on Thinking Critically About Law in the Future as well as a renewed emphasis on the health and well being of students Other student focused resources will be available as support materials Thinking Critically about Law is a crucial companion for those studying law at A Level and undergraduate level as well as being relevant to postgraduate students newly qualified lawyers and tutors of law

Human Rights Andrew Clapham, 2015-11-26 Today it is usually not long before a problem gets expressed as a human rights issue Indeed human rights law continues to gain increasing attention internationally and must move quickly in order to keep up with a social world that changes so rapidly This Very Short Introduction in its second edition brings the issue of human rights up to date considering the current controversies surrounding the movement Discussing torture and arbitrary detention in the context of counter terrorism Andrew Clapham also considers new challenges to human rights in the context of privacy equality and the right to health Looking at the philosophical justification for rights the historical origins of human rights and how they are formed in law Clapham explains what our human rights actually are what they might be and where the human rights movement is heading

Law A Very Short Introduction Introduction

In today's digital age, the availability of Law A Very Short Introduction books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Law A Very Short Introduction books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Law A Very Short Introduction books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Law A Very Short Introduction versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Law A Very Short Introduction books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Law A Very Short Introduction books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Law A Very Short Introduction books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Law A Very Short Introduction books and manuals for download

have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Law A Very Short Introduction books and manuals for download and embark on your journey of knowledge?

FAQs About Law A Very Short Introduction Books

1. Where can I buy Law A Very Short Introduction books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
