Intermediality and Spectatorship in the Theatre Work of Robert

Lepage Aristita I. Albacan, 2016-09-23 Robert Lepage has imposed himself in the past three decades as a Wunderkind of contemporary theatre with eagerly awaited and widely acclaimed productions at the most prestigious theatre festivals and venues around the world Soon after his international breakthrough with *The Dragon s Trilogy* 1984 Lepage s work became an object of particular scrutiny for critics and scholars and continues to be subject to media exposure inspiring cultural critique academic study and the admiration of audiences across the world A recurrent fascination with the formal novelty of

his theatrical approach imbues most if not all critical considerations However in spite of the wide interest provoked little space has been devoted to the quintessential impact of his work on spectatorship and most importantly to connecting the dots between his creative practice and its substantial impact on audiences Intermediality and Spectatorship in the Theatre Work of Robert Lepage bridges this gap by exploring the notion that intermediality observed both as a mise en scene strategy and a perceptual effect in performance is situated at the core of the director s approach This approach is situated in direct relation to the evolving expectations and medial competencies of spectators demonstrating an in depth understanding of the ways in which different media can be engaged in the creative process in a holistic way in order to alter the regime of spectatorship to enhance its creative and cognitive potential Lepage s work and theatre making process are analysed here from an interdisciplinary perspective that combines theatre media and cultural studies and which is applied to his solo shows namely Vinci 1986 Needles and Opium 1991 Elsinore 1995 Far Side of the Moon 2000 and Project Andersen 2005 In bringing to the forefront interconnecting notions of intermediality and contemporary spectatorship the book highlights the director s preoccupation with an ongoing dialogue with audiences across the world and their particular involvement in the development of one of the most innovative practices of the Western theatre landscape **Handbook of French vocabulary, ed. by T.K.**

Dilke,1902 Les Six Robert Shapiro,2014-07-01 The absorbing comprehensive story of an absolutely unique experiment in classical music involving many key figures of the Dada and Surrealist movements Les Six were a group of talented composers who came together in a unique collaboration that has never been matched in classical music and here their remarkable story is told for the first time A musical experiment originally conceived by Erik Satie and then built upon by Jean Cocteau Les Six were also born out of the shock of the German invasion of France in 1914 an avant garde riposte to German romanticism and Wagnerism Les Six were all and still are respected in music circles but under the aegis of Cocteau they found themselves moving among a whole new milieu the likes of Picasso Ren Clair Blaise Cendrars and Maurice Chevalier all appear in the

story But the story of Les Six goes on long after the heyday of Bohemian Paris the group never officially disbanded and it was only in the last 20 years that the last member died moreover their spouses descendents and associates are still active ensuring that the remarkable legacy of this unique group survives **The Pocket Idiot's Guide to French Phrases** Gail Stein,2009 A latest edition incorporates updated information on transportation accommodations and emergency preparedness as well as a new section for business travelers counseling visitors to France on how to communicate with locals for essential needs Original **The French Atlantic** Bill Marshall,2009-01-01 The French Atlantic is a compelling and timely contribution to ongoing debates about nationhood culture and Frenchness that have come to define France and its diaspora in light of the diplomatic fracas surrounding the Iraq war and other mass cultural events With interdisciplinary navigation of fields nearly as diverse as the locations he explores Bill Marshall considers the cultural history of seven different French Atlantic spaces from Quebec to the southern Caribbean to North Atlantic territory and back to metropolitan France in this groundbreaking study of the Atlantic world
