The Author Training Manual Nina Amir, 2014-02-18 If you want to write a book that's going to sell to both publishers and readers you need to know how to produce a marketable work and help it become successful. It starts the moment you have an idea. That's when you begin thinking about the first elements of the business plan that will make your project the best it can be. The reality is that you don't want to spend time and energy writing a book that will never get read. The way to avoid that is to create a business plan for your book and evaluate it and yourself through the same lens that an agent or acquisitions editor would. The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind. Whether you're writing fiction or non-fiction or intend to publish traditionally or self-publish, author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf. Packed with step-by-step instructions, idea evaluations, sample business plans, editor and agent commentaries, and much more, The Author Training Manual provides the information you need to transform from aspiring writer to career author.

Book Indexing Stephen Ullstrom, 2023-07-11 How to write an index for any book collection or report. It's true. Creating an index for a book is challenging and time-consuming. It's why authors and publishers hire professional indexers. But that's not the only way to get a quality index. If you have the desire and a penchant for detail, you too can write an orderly and comprehensive index. Book Indexing shows you how. With the aid of checklists, Try This exercises, and dozens of examples, Book Indexing helps you face the text with confidence. Step by step, you will learn the different kinds of indexes and which to use for your book. How to use the hierarchy of information to decide what to include in the index and what to leave out. How to capture the book's themes and give the reader a starting point into the index. How to lay out the index to help readers with their search, including searches for words that aren't in the book. Tips for choosing the right words for index entries, the basis of a refined index. The five-step process for tackling your indexing project. Throughout the book, Stephen takes you through his decision-making on dozens of extracts from his own indexes. Imagine the value of an index for a favorite cookbook, your community's history, your company's manual, or a book you wrote yourself. With Book Indexing as your guide, you can create an index worthy of the text, an index that your audience will turn to repeatedly. Who else can use this book? If you're an editor, a publisher, or anyone else who works with indexers, you'll see first-hand what indexers think about and how they do their work. Or perhaps you've wondered about professional indexing as a career or a side business. Book Indexing will give you the chance to try out your abilities and interests with no investment but your time.

The Little Book Of Life, **The Public Affairs Faculty Manual** Bruce McDonald III, William Hatcher, 2020-02-26 While public affairs faculty study administration and management techniques, few administrators of public affairs programs receive formal training in the nuts and bolts of academic administration. Even those faculty who come to academia after distinguished careers in managerial positions may not be ready for the very different and difficult

environment of university administration The Public Affairs Faculty Manual argues that public affairs as a field needs to ensure that knowledge about administration and management is applied to the running of its academic programs and brings together major leaders in the discipline to explore key features of academic administration Many of these leaders have served as Master of Public Administration MPA directors chairs and deans at the nation s top public affairs programs Crucial issues of academic administration discussed include the basics of public affairs programs models of governance roles of different administrative leaders planning and budgeting for programs navigating the accreditation process assessing and improving student learning ensuring social equity and cultural competency mentoring faculty developing curriculum and helping provide service and applied research to community partners Contributors have served as MPA directors chairs and deans at the nation s top public affairs programs Themes running throughout the book s chapters are examined and additional resources to help manage public affairs programs are offered This collection of essays and the strategies within it are designed to encourage faculty to assume positions of leadership in their programs and manage those programs in an effective efficient and fair manner The Public Affairs Faculty Manual is required reading for new seasoned and aspiring academic administrators in public administration public policy and nonprofit management programs as well as schools of government
