M1078a1 Tech Manual:

Survivors James Wesley, Rawles, 2011-10-04 This lightening paced instant New York Times bestseller about survival in America after an apocalyptic economic crash asks the question What if the world as we know it ended tomorrow The America we are accustomed to is no more Practically overnight the stock market has plummeted hyperinflation has crippled commerce and the fragile chains of supply and high technology infrastructure have fallen The power grids are down Brutal rioting and looting grip every major city The volatile era known as the Crunch has begun and this new period in our history will leave no one untouched In this unfamiliar environment only a handful of individuals are equipped to survive The world of *Survivors* is a terrifyingly familiar one Rawles has written a novel so close to the truth readers will forget it s fiction If everything you thought you knew suddenly fell apart would you survive
