training known as Common Skills because it is common to every Marine. These common skills allow every Marine regardless of MOS to act as Rifleman when called upon. MCT Battalion generates Marine Riflemen to possess a foundational understanding of and their role in applying the Marine Corps warfighting ethos, core values, basic tenets of maneuver warfare, leadership responsibilities, mental, moral, and physical resiliency in order to contribute to the successful accomplishment of their unit's mission.

New Rifleman Definition: A Marine Rifleman embodies the Marine Corps warfighting ethos, offensively minded, lethal with their weapon, mentally, morally, physically resilient, proficient in basic field craft, and possessing a foundational understanding of leadership and the basic tenets of maneuver warfare.

Fundamentals of Military Medicine Francis G. O'Connor, Eric B. Schoomaker, Dale C. Smith, 2019-06-03

An introduction to military medicine for medical students new to the military. Military medicine is the application of medical art and science in a military setting for the benefit of the military organization through optimal care of the combatant. Topics include the history of military medicine, leadership, the management and treatment of trauma and mass casualties in frequently austere field and ship environments, the humane clearing of the battlefield, vaccines and protection against exotic global pathogens, both manmade and naturally occurring, unique psychological stressors of war, biodefense against chemical and nuclear weapons, facilitating return to duty, and the eventual return and reintegration home of valuable human resource.

This first of its kind textbook offers both authoritative scholarship and the experience of high level medical officers for the new medical officer within any of the armed services, ranging from medical, surgical, nursing, dental, veterinary, and more. It also provides health education and research for the military health professional's deployed to save enlisted military lives and helps to educate medical students with military medical practices and leadership.
