

Exam Question and Answer on Market Segmentation

Salim Brommer is the Marketing Director of Ashkol Furniture Supplies, a medium-sized company which specializes in manufacturing office furniture. The company makes its products in India, so benefiting from relatively low labour costs. However, it has recently experienced intense competition from suppliers who have even lower cost bases. Salim has decided that his company will benefit if he focuses on those customers who can provide higher profit margins. He has decided to target domestic customers in Europe.

Increasingly, private households, particularly those with computers, are converting spare rooms into office-style areas. Additionally there has been a noticeable trend towards working from home. This saves employers incurring the costs of office provision, and also employees save on travel and can also work at times convenient to themselves. However, Ashkol has no experience of dealing with these types of customers. The company now needs to develop a suitable marketing strategy to succeed in this new area and maintain a sustainable competitive advantage.

Required:

Product The physical product needs to be appropriate for the private household market.

Office furniture may have a very different style to household furniture, so a different approach may need to be taken to the design of the product in order to make it appealing for the domestic buyer. A customer will only buy one of Salim's products if they get a better deal from buying it than from buying any of the alternatives. This hig
