and the Problem of Experience Dror Yinon, 2025-07-24 This comprehensive reframing of Gilles Deleuze as a transcendental empiricist delves into his seminal *Difference and Repetition* to unearth a system that inverts the Kantian worldview By focusing on Deleuze's theory of the faculties we can see how he builds a transcendental system of thought that defies the predictability of empirical experience The place of experience in the way we understand our relation to the world to others and to ourselves is a central theme of modern philosophy Deleuze's transcendental empiricism points to an unexplored direction in this major philosophical preoccupation It is a road not taken that against the tide of his times rejected the possibility of an immediate contact with being and embraced the possibility of reaching a real that lay beneath many layers of mediation Unlike many of his contemporaries Deleuze neither subscribed to a specific philosophical school nor did he try to establish one This new understanding of him as a transcendental empiricist not only helps to situate his work in the constellation of twentieth-century French philosophers but also helps us to understand a philosopher for whom difference and heterogeneity were central to his own philosophical corpus **Exotic Animal Medicine for the Veterinary**
