The diagram illustrates the experimental setup. A participant is seated at a table, looking at a computer monitor. On the table, there is a starting point (a large circle) and a target (a small circle). The distance between the starting point and the target is labeled 'D'. The distance between the starting point and the monitor is labeled 'L'. The distance between the target and the monitor is labeled 'D-L'.

- The figure consists of two side-by-side bar charts. The left chart shows the percentage of respondents who used a smartphone, with a value of approximately 80%. The right chart shows the percentage of respondents who used a tablet, with a value of approximately 20%.
