conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call Greek romances Roman satires medieval Sanskrit novels narrated by parrots Byzantine erotic thrillers 5000 page Arabian adventure novels Icelandic sagas delicate Persian novels in verse Japanese war stories even Mayan graphic novels Throughout Moore celebrates the innovators in fiction tracing a continuum between these pre modern experimentalists and their postmodern progeny Irreverent iconoclastic informative entertaining The Novel An Alternative History is a landmark in literary criticism that will encourage readers to rethink the novel **Paradox and the Prophets** Daniel H. Weiss,2012-06-21 Weiss examines the style and method of Hermann Cohen s magnum opus Religion of Reason out of the Sources of Judaism Through philosophical and scriptural analyses Weiss argues for a new reading of this long misunderstood book demonstrating Cohen s continuing significance for Jewish thought and for philosophy of religion more broadly **Created Equal** Joshua Berman,2011-08-12 In Created Equal Joshua Berman engages the text of the Hebrew Bible from a novel perspective considering it as a document of social and political thought He proposes that the Pentateuch can be read as the earliest prescription on record for the establishment of an egalitarian polity What emerges is the blueprint for a society that would stand in stark contrast to the surrounding cultures of the ancient Near East Egypt Mesopotamia Ugarit and the Hittite Empire in which the hierarchical structure of the polity was centered on the figure of the king and his retinue Berman shows that an egalitarian ideal is articulated in comprehensive fashion in the Pentateuch and is expressed in its theology politics economics use of technologies of communication and in its narrative literature Throughout he invokes parallels from the modern period as heuristic devices to illuminate ancient developments Thus for example the constitutional principles in the Book of Deuteronomy are examined in the light of those espoused by Montesquieu and the rise of the novel in 18th century England serves to illuminate the advent of new modes of storytelling in biblical narrative

Judges 1 Mark S. Smith,Elizabeth M. Bloch-Smith,2021-11-23 This groundbreaking volume presents a new translation of the text and detailed interpretation of almost every word or phrase in the book of Judges drawing from archaeology and iconography textual versions biblical parallels and extrabiblical texts many never noted before Archaeology also serves to show how a story of the Iron II period employed visible ruins to narrate supposedly early events from the so called period of the Judges The synchronic analysis for each unit sketches its characters and main themes as well as other literary dynamics The diachronic redactional analysis shows the shifting settings of units as well as their development commonly due to their inner textual reception and reinterpretation The result is a remarkably fresh historical critical treatment of 1 1 10 5

Stranger Gods Roger Y. Clark, 2000-12-18 Clark's exploration of Rushdie's novels works on at least three levels First he clarifies and interprets Rushdie's often puzzling references to figures such as Loki and Shiva settings such as the mountains of Qaf and Kailasa and experiences such as the annihilation of the self and the temptations of the Muslim Devil Iblis Second he demonstrates how otherworldly motifs work with or against each other fusing or clashing with Dantean Shakespearean and other literary forms to create hybrid characters plots and themes Finally he argues that Rushdie's brutal assault on tradition and taboo is mitigated by his secular idealism and his subtle homage to mystical ideals of the past This novel interpretation which presents Rushdie's first five novels as a heterogeneous yet consistent body of work will challenge and delight not only Rushdie scholars but anyone interested in comparative religion and mythology iconoclasm and the interplay of Western and Eastern literary forms

Death in the Iron Age II and in First Isaiah Christopher B. Hays, 2011 Death is one of the major themes of First Isaiah although it has not generally been recognized as such Images of death are repeatedly used by the prophet and his earliest tradents The book begins by concisely summarizing what is known about death in the Ancient Near East during the Iron Age II covering beliefs and practices in Mesopotamia

Egypt Syria Palestine and Judah Israel Incorporating both textual and archeological data Christopher B Hays surveys and analyzes existing scholarly literature on these topics from multiple fields Focusing on the text s meaning for its producers and its initial audiences he describes the ways in which the rhetoric of death functioned in its historical context and offers fresh interpretations of more than a dozen passages in Isa 5 38 He shows how they employ the imagery of death that was part of their cultural contexts and also identifies ways in which they break new creative ground This holistic approach to questions that have attracted much scholarly attention in recent decades produces new insights not only for the interpretation of specific biblical passages but also for the formation of the book of Isaiah and for the history of ancient Near Eastern religions
