Guide For The Installation Of Satellite:

Guide to Satellite TV Derek John Stephenson, 1999 *Guide to Satellite TV* D.J. Stephenson, 1997-10-29 Newnes

Guide to Satellite TV is a practical guide to the installation and servicing of satellite TV receiving equipment. Derek Stephenson provides all the essential background information without weighing it down with excessive theory or mathematics and covers the practice of installation and servicing with clear step by step guidance. Essential data tables and numerous diagrams are included throughout. This book meets the practical need between theoretical textbook and simple installation guide. The work includes topics such as digital TV including MPEG 2 reception requirements, LNB requirements, digital link budget extensions and a new section on squinting antennas. The Guide has always been known for the practical nature of the information it contains such as the control of problems involving sparklies, trees, rain and vandals solved by the now famous two drunks high dish mounting rule. The result is a text which provides the necessary information to specify, install and maintain both fixed and polar mount antenna systems along with small IF distribution systems for small blocks of flats and hotels. Derek Stephenson is a practising video satellite TV repair engineer and the author of Satmaster Pro, a leading Windows based software package for satellite TV.

Building Regulations in Brief Ray Tricker, Samantha Alford, Rozz Algar, 2011-03-03

The most popular and affordable guide to the building regulations. *Building Regulations in Brief* is updated regularly to reflect constant changes. Now in its 6th edition, it has sold over 25 000 copies since its first publication in 2003. This new edition includes the latest on all the significant amendments to Building Regulations, Planning Permission and the Approved Documents between 2007 and April 2010 and includes changes to Parts A, B, D, E, F, G, H, J, L, M and N. The changes to Part G of Building Regulations, formerly titled Hygiene and now renamed Sanitation, hot water and water efficiency, which came into effect on 6 April 2010, are also included. The no nonsense approach has made it a firm favourite with all involved in the building industry, including designers, building surveyors and inspectors, students and architects. A ready reference giving practical information, it enables compliance in the simplest and most cost effective manner possible. *Building Regulations in Brief* cuts through the confusion to explain the meaning of the regulations, their history, current status, requirements, associated documentation and how local authorities view their importance, as well as emphasizing the benefits and requirements of each regulation. It is an essential purchase for anyone needing to comply with the Building Regs.
