**The Surface of Meaning** Robert Bringhurst, 2008 The design and manufacture of books can tell as much about a people or a culture as the ambience of its streets and the architecture of its buildings In our everyday lives books surround us even if we are among the many who never read another one after high school Their very jacket design asks us to make meaning of

their presence and when we open them the layout of words and stories within their covers makes us readers even before we begin to read To Robert Bringhurst typographer poet and writer the presence of books and the story of books in Canada are preludes to understanding our culture From the tattered book of Canadian poetry your moody cousin carried everywhere to the pristine hardcover book of Atwood s latest work in your brainy co worker s hands book design says much about who and where we are as Canadians In *The Surface of Meaning* Robert Bringhurst takes us on another of his walking tours this time through the bramble of English and French Canadian books and book design from the mid 18th Century to the present day Along the way he discovers a true image trove of identity culture and history And he does what no other work on books and publications does He creates a truly national survey of Canadian books by bringing Canada s long history of Aboriginal story telling into a context of book It is a context that goes into the depths of our prehistory far beyond the printed page *The Surface of Meaning* is a tribute to Canadian books and publishing It is irresistible to readers who love books as well as to designers and others who may simply prefer to look at them      **Subject Guide to Books in Print** ,1993      **Canadian Books in Print 2002** Edited by Butler Marian,Marian Butler,2002-02 Containing more than 48000 titles of which approximately 4000 have a 2001 imprint the author and title index is extensively cross referenced It offers a complete directory of Canadian publishers available listing the names and ISBN prefixes as well as the street e mail and web addresses
