

POLICE OFFICER BIOGRAPHY EXAMPLES

Officer Keane Reeves has been serving the ninth district of the city of Warhol in the state of Georgia for over ten years. He was first inspired to become a police officer after witnessing two officers beating a suspect that they had just arrested, simply out of spite for having caught him. Officer Reeves was just a child at the time, but he vowed to become a police officer that would be able to reshape the department and bring true justice. His biggest inspiration was his mother, who encouraged him to be a protector of the people, rather than protecting himself from the people.

A graduate of Percy High School in Warhol, Officer Reeves is a native to Georgia and the Warhol area. After graduating high school, Officer Reeves obtained an associate's degree in Paralegal Studies from Roanoke County Community College. He worked for two years as an assistant to a criminal lawyer, hoping to gain knowledge about the legal system. He left his position in 2004, disturbed at the amount of injustice he had observed in his work. He joined the ninth district city police later that year, and demonstrated himself to be a calm and fair officer who was trusted by the community.

In 2015, he was promoted to Deputy, and he began to make changes in the structure of the police department. He implemented the use of body cameras for all officers, and insisted on accompanying a random officer each night on making rounds across the city. During his tenure as deputy, the number of complaints received about police conduct have dropped by half. Officer Reeves is currently working on an outreach mission to unite the community and police officers in informal discussions, in order to restore trust in law enforcement over recent tensions in the community.

Autobiography of the Late Col. Geo. T.M. Davis George Turnbull Moore Davis, 1891

Introduction to Law

Enforcement George Kirkham, Laurin A. Wollan, 1980 *Arkansas Biography* Jeannie M. Whayne, 2000-01-01 Eight years in the making *Arkansas Biography* brings to light the lives of those who have helped shape Arkansas history for over four hundred years. Featured are not only the trailblazers such as steamboat captain Henry Shreve Olympic gold medalist Bill Carr discount mogul Sam Walton and aviator Louise Thaden but also those whose lives reflect their culture and times: musicians, scientists, teachers, preachers, and journalists. One hundred and eighty contributors, professional and avocational historians, offer clear vignettes of nearly three hundred individuals beginning with Hernando de Soto who crossed the Mississippi River in the summer of 1540. The entries include birth and death dates and places, life and career highlights, lineage, anecdotes, and source material. This is a browser's book with an Arkansas voice. The wealth of information condensed into this single reference volume will be valuable to general readers of all ages, libraries, museums, and scholars. A fitting summary at the turn of a millennium, *Arkansas Biography* pays lasting tribute to the men and women who have enriched the life and character of the state and by extension the region and the nation.

Race, Crime, and Policing in the Jim Crow South Brandon T. Jett, 2021-07-07 Winner of the Florida Book Award general nonfiction category. Throughout the Jim Crow era, southern police departments played a vital role in the maintenance of white supremacy. Police targeted African Americans through an array of actions including violent interactions, unjust arrests, and the enforcement of segregation laws and customs. Scholars have devoted much attention to law enforcement's use of aggression and brutality as a means of maintaining African American subordination. While these interpretations are vital to the broader understanding of police and minority relations, Black citizens have often come off as powerless in their encounters with law enforcement. Brandon T. Jett's *Race, Crime, and Policing in the Jim Crow South* by contrast reveals previously unrecognized efforts by African Americans to use, manage, and exploit policing. In the process, Jett exposes a much more complex relationship, suggesting that while violence or the threat of violence shaped police and minority relations, it did not define all interactions. Black residents of southern cities repeatedly complained about violent policing strategies and law enforcement's seeming lack of interest in crimes committed against African Americans. These criticisms notwithstanding, Blacks also voiced a desire for the police to become more involved in their communities to reduce the seemingly intractable problem of crime, much of which resulted from racial discrimination and other structural factors related to Jim Crow. Although the actions of the police were problematic, African Americans nonetheless believed that law enforcement could play a role in reducing crime in their communities. During the first half of the twentieth century, Black citizens repeatedly demanded better policing and engaged in behaviors designed to extract services from law enforcement officers in Black neighborhoods as part of a broader strategy to make their communities safer. By examining the myriad ways in which African Americans influenced the police to serve the interests of

the Black community Jett adds a new layer to our understanding of race relations in the urban South in the Jim Crow era and contributes to current debates around the relationship between the police and minorities in the United States *Police Detectives in History, 1750-1950* Clive Emsley, 2017-09-29 While the history of the uniformed police has prompted considerable research the historical study of police detectives has been largely neglected confined for the most part to a chapter or a brief mention in books dealing with the development of the police in general The collection redresses this imbalance Investigating themes central to the history of detection such as the inchoate distinction between criminals and detectives the professionalisation of detective work and the establishment of colonial police forces the book provides a the first detailed examination of detectives as an occupational group with a distinct occupational culture Essays discuss the complex relationship between official and private law enforcers and examine the ways in which the FBI in the U S A and the Gestapo in Nazi Germany operated as instruments of state power The dynamic interaction between the fictional and the real life image of the detective is also explored Expanding on themes and approaches introduced in recent academic research of police history the comparative studies included in this collection provide new insights into the development of both plain clothes policing and law enforcement in general illuminating the historical importance of bureaucratic and administrative changes that occurred within the state system **Combating London's Criminal Class** Matthew Bach, 2020-07-09 The criminal class was seen as a violent immoral and dissolute sub section of Victorian London s population Making their living through crime and openly hostile to society the lives of these criminals were characterised by drunkenness theft and brutality This book explores whether this criminal class did indeed truly exist and the effectiveness of measures brought against it Tracing the notion of the criminal class from as early as the 16th century this book questions whether this sub section of society did indeed exist Bach discusses how unease of London s notorious rookeries the frenzy of media attention and a word deleted here panic among the general public enforced and encouraged the fear of the criminal class and perpetuated state efforts of social control Using the Habitual Criminals Bills this book explores how and why this legislation was introduced to deal with repeat offenders and assesses how successful its repressive measures were Demonstrating how the Metropolitan Police Force and London s Magistrates were not always willing tools of the British state this book uses court records and private correspondence to reveal how inconsistent and unsuccessful many of these measures and punishments were and calls into question the notion that the state gained control over recidivists in this period [The Politics of Biography in Africa](#) Anaïs Angelo, 2021-08-31 Bringing together historians political scientists and literary analysts this volume shows how biographical narratives can shed light on alternative little known or under researched aspects of state power in African politics Part 1 shows how biographical narratives breathe new life into subjects who upon decolonization had been reduced to silence women workers and radical politicians The contributors analyze the complex relationship between biographical narratives and power questioning either the power of biographical codes peculiar to western colonial origins or the power to

shape public memory Part 2 reflects on the act of auto biography writing as an exercise of power one that blurs the lines between truth and invention Auto biographical narratives appear as politicized ambiguous stories Part 3 focuses on female leadership during and after colonization exploring on how women gained lost or reinvented power Brought together the contributions of this volume show that the function of biographical narratives should no longer oscillate between romanticized narratives and historical evidence their varied formats all offer fruitful opportunities for a multidisciplinary dialogue This book will be of interest to scholars from various disciplinary backgrounds working on the African postcolonial state the decolonization process women s and gender studies and biography writing **Routledge International**

Handbook of Police Ethnography Jenny Fleming,Sarah Charman,2023-01-31 Ethnography has a long history in the humanities and social sciences and has provided the base line in the field of police studies for over 60 years We have recently witnessed a resurgence in ethnographic practice among police scholars and this Handbook is a response to that revival Students and academics are returning to the ethnography arena and the study of police in situ to explain the evocative worlds of the police The list of ethnographic sites is vast and all have fed the rejuvenation of ethnographic endeavour Together they suggest innovation theoretical depth broad geographical boundaries multi site experiments and multi disciplinarity all of which are central to the exploration of police and policing in the twenty first century This Handbook encapsulates the revival of police ethnography by exploring its multidisciplinary field and cataloguing the ongoing ethnographic work It offers an original and international contribution to the field of police studies and research methods providing a comprehensive and overarching guide to police ethnography We see the previous classics in every page and still note the influence of the early ethnographers At the same time we see the innovative breadth and diversity of these narratives The aim of this Handbook is to highlight the mosaic that is police ethnography at a point in time and note with pleasure its contribution to the field once more Ethnography may be messy difficult and at times uncooperative but its results offer a unique insight into the perspectives of people and organisations that can hide in plain sight An accessible and compelling read this Handbook will provide a sound and essential reference source for academics researchers students and practitioners engaged in police and criminal justice studies **The Scottish Police Officer** Daniel Donnelly,2014-05-16

The structure of policing is undergoing change in Scotland at present and the profile of the police officer differs from that of the past This book takes an informative approach and offers a unique account and insight into the Scottish police organisation describing the Scottish police officer from the point of recruitment through to training development and specialist policing Written by an ex senior police officer this book examines how the qualified police officer goes about his her daily work policing and how this has changed over time as a result of organised crime terrorism and the changing priorities of the public and politicians The contribution of non police officers such as police civilian staff auxiliaries and the private sector plays a key role in the policing of Scotland in the 21st century and is considered at length As police supervision and

management is crucial to the organisation's success the subjects of personnel development promotion and management in the police is examined with comment on the suitability of the system in the 21st century The book concludes with commentary on the future profile of the Scottish police officer and makes some general comparison with their colleagues in the rest of the UK and European Union This will be an essential text for police officers in Scotland and elsewhere and students and academics in the areas of law politics management police studies criminology and criminal justice **The**

Cowboy Capitalist Charles van Onselen, 2018-04-20 The Jameson Raid was a pivotal moment in the history of South Africa linking events from the Anglo Boer War to the declaration of the Union of South Africa in 1910 For more than a century the failed revolution has been interpreted through the lens of British imperialism with responsibility laid at the feet of Cecil Rhodes Yet the raid was less a serious attempt to overthrow a Boer government than a wild adventure with transnational roots in American filibustering In *The Cowboy Capitalist* renowned South African historian Charles van Onselen challenges a historiography of over 120 years locating the raid in American rather than British history and forcing us to rethink the histories of at least three nations Through a close look at the little remembered figure of John Hays Hammond a confidant of both Rhodes and Jameson he discovers the American Old West on the South African Highveld This radical reinterpretation challenges the commonly held belief that the Jameson Raid was quintessentially British and in doing so drives splinters into our understanding of events as far forward as South Africa's critical 1948 general election with which the foundations of Grand Apartheid were laid
