Command terms

Classification of command terms

In the learning outcomes (see syllabus content) the command terms are associated with assessment objectives 1, 2 or 3 and indicate the depth of understanding that is required of students in relation to each item of content. The grouping of command terms under assessment objectives reflects the cognitive demand of each term and is related to Bloom's taxonomy.

A command term used in an examination question will be:

- the same as that specified in the related learning outcome, or
- another command term associated with the same assessment objective, or
- a command term of less cognitive demand.

For example, if a learning outcome begins with the command term "explain", an examination question based on this learning outcome could contain the command term "explain", another command term associated with assessment objective 2 (such as "analyse"), or a command term associated with assessment objective 1 (such as "describe"), but not a command term associated with assessment objective 3 (such as "evaluate").

Orthodox Christian Material Culture Timothy Carroll, 2018-05-15 Although much has been written on the making of art objects as a means of engaging in creative productions of the self most famously Alfred Gell's work there has been very little written on Orthodox Christianity and its use of material within religious self formation Eastern Orthodox Christianity is renowned for its artistry and the aesthetics of its worship being an integral part of devout practice Yet this is an area with little ethnographic exploration available and even scarcer ethnographic attention given to the material culture of Eastern Christianity outside the traditional homelands of the greater Levant and Eastern Europe Drawing from and building upon Gell's work Carroll explores the uses and purposes of material culture in Eastern Orthodox Christian worship Drawing on three years of ethnographic fieldwork in a small Antiochian Orthodox parish in London Carroll focusses on a study of ecclesiastical fabric but places this within the wider context of Orthodox material ecology in Britain This ethnographic exploration leads to discussion of the role of materials in the construction of religious identity material

understandings of religion and pathways of pilgrimatic engagement and religious movement across Europe In a religious tradition characterised by repetition and continuity but also as sensuously tactile this book argues that material objects are necessary for the continual production of Orthodox Christians as art like subjects It is an important contribution to the corpus of literature on the anthropology of material culture and art and the anthropology of religion *Food Safety in Low and Middle Income Countries* Delia Grace,Bassirou Bonfoh,Hung Nguyen-Viet,Barbara Häsler,2024-02-23 Foodborne diseases FBD are an important externality of agriculture and food systems but only recently have they risen up the development agenda as the result of growing awareness of the health and economic burdens of FBD and how they relate to food systems with a focus on low income and middle income countries LMIC particularly African nations The health burden of FBD is comparable with that of malaria and over 90% falls on people in LMIC with an economic burden of more than US 100 million per year FBD have many other less well estimated effects on nutrition gender equity and the environment While understanding of food safety in domestic markets of LMICs has advanced greatly risk management is in its infancy This Research Topic will bring together leading regional perspectives on food safety in LMICs **The City Companies** Livery Companies of London,1916 **INTERMEDIATE II YEAR MATHS II A(English Medium) TEST PAPERS** Vikram Books,2014-10-24 Intermediate second Year Maths II A Test papers Issued by Board of Intermediate Education w e f 2013 2014 *National Stockman and Farmer* ,1886 *Aeronautical Engineering: A Cumulative Index to a Continuing Bibliography (supplement 235)* ,1989 **Aeronautical Engineering** ,1989 A selection of annotated references to unclassified reports and journal articles that were introduced into the NASA scientific and technical information system and announced in Scientific and technical aerospace reports STAR and International aerospace abstracts IAA
