Memorandum Of Life Science P1 March 2014:

Nostalgia after Apartheid Amber R. Reed, 2020-11-30 In this engaging book Amber Reed provides a new perspective on South Africa's democracy by exploring Black residents' nostalgia for life during apartheid in the rural Eastern Cape. Reed looks at a surprising phenomenon encountered in the post-apartheid nation despite the Department of Education mandating curricula meant to teach values of civic responsibility and liberal democracy; those who are actually responsible for teaching this material and the students taking it often resist what they see as the imposition of white values. These teachers and students do not see South African democracy as a type of freedom but rather as destructive of their own African culture, whereas apartheid at least ostensibly allowed for cultural expression in the former rural homelands. In the Eastern Cape, Reed observes, resistance to democracy occurs alongside nostalgia for apartheid among the very citizens who were most disenfranchised by the late racist authoritarian regime. Examining a rural town in the former Transkei homeland and the urban offices of the Sonke Gender Justice Network in Cape Town, Reed argues that nostalgic memories of a time when African culture was not under attack combined with the socioeconomic failures of the post-apartheid state set the stage for the current political ambivalence in South Africa. Beyond simply being a case study, however, *Nostalgia after Apartheid* shows how, in a global context in which nationalism and authoritarianism continue to rise, the threat posed to democracy in South Africa has far wider implications for thinking about enactments of democracy. *Nostalgia after Apartheid* offers a unique approach to understanding how the attempted post-apartheid reforms have failed rural Black South Africans and how this failure has led to a nostalgia for the very conditions that once oppressed them. It will interest scholars of African studies, postcolonial studies, anthropology, and education, as well as general readers interested in South African history and politics.

Ecological Restoration Law Afshin Akhtar-Khavari, Benjamin J. Richardson, 2019-01-25 Ecological restoration is as essential as sustainable development for the health of the biosphere. Restoration, however, has been a low priority of most countries' environmental laws, which tend to focus narrowly on rehabilitation of small discrete sites rather than the more ambitious recovery of entire ecosystems and landscapes. Through critical theoretical perspectives and topical case studies, this book's diverse contributors explore a more ambitious agenda for ecological restoration law. Not only do they investigate current laws and other governance mechanisms; they also consider the philosophical and methodological bases for the law to take ecological restoration more seriously. Through exploration of themes relating to time, space, geography, semiotics, social justice, and scientific knowledge, this book offers innovative and critical insights into ecological restoration law. *F & S Index United States Annual*, 2006

A History of International Thought Lucian Ashworth, 2014-01-10 International thought is the product of major political changes over the last few centuries, especially the development of the modern state and the industrialisation of the world economy. While the question of how to deal with strangers from other communities has been a constant throughout human history, it is only in recent centuries that the question of foreign relations and especially
