reality content through a series of black and white marks that have been seamlessly integrated throughout the pages In order to experience the content your camera must be pointed at these marks The main mark available at the beginning of the book is used to interact with the augmented reality models which will be rendered in real time in your computer screen If you do not have a webcam connected to your computer SolidWorks files of the models used throughout the book are included on the CD In addition STL files have been provided so the models can be opened using your solid modeling CAD package of choice or printed on a 3D printer
