Open source Flash has been a revolution for Flash and has made a major impact on how people build Flash content. The open source tools available expand on Flash's existing tool set, enabling you to perform such tasks as easily create full 3D in Flash or hook up to an open source video streaming server. Many of these useful tools are powerful yet lack documentation; this book explains in step-by-step detail how to use the most popular open source Flash tools. If you want to expand your Flash tool set and explore the open source Flash community, then this book is for you. If you already use some open source Flash tools, then you will find this book a useful documentation resource as well as an eye opener to the other tools that are available.

Essential ActionScript 2.0 Colin Moock, 2004-06-16 Experienced Flash developers and programmers coming from other languages will enjoy the sheer depth of Moock's coverage. Novice programmers will appreciate the frequent low jargon explanations that are often glossed over by advanced programming books.

Foundation Flash CS3 Video Adam Thomas, Tom Green, 2008-07-09 Video is one of the most exciting features on today's Internet, with widespread adoption being made possible by advances in bandwidth and software. But simply streaming video clips to Web users is only the tip of the iceberg. Flash CS3 offers a whole host of advanced video features, allowing you to create breathtaking user experiences. And this book, the second edition of the critically acclaimed *Foundation Flash 8 Video*, shows you how to make the most of video in Flash CS3. The authors start with the basics of creating video ready for use on the web, using popular applications such as Windows Movie Maker and iMovie, creating FLV Flash video using both Flash and other applications such as Sorenson Squeeze, and importing that video into Flash. With that out of the way, they then turn their attention to essential practical techniques such as creating and customizing video players, applying blends and filters to Flash video, effective use of video alpha channel and masks, captioning, cue points, interactivity using the Camera object, going full screen, and much more. This edition is fully updated for Flash CS3 and ActionScript 3.0 and includes many new examples.
