Dozois, 2012-11-15 A monumental collection of fiction and nonfiction by the award winning writer and editor Gardner Dozois including perhaps the only World Science Fiction trip report you'll ever find that is a lyrical and evocative piece of journalism in itself. These are Dozois short stories selected and introduced by writers many of them legends themselves who are friends and colleagues of Dozois. A sparkling collection of short fiction that contains some of the two time Nebula winner's best work including many topflight Dozois collaborations. From the introduction: Imagine you're at a party in Gardner's apartment. It's not large but he's invited swarms of people so it's very crowded. Gardner keeps his awards on a little table not far from the door. People who have never been there before, young editors and the like will eventually drift over to admire the thicket of Hugos for his work as an editor and while there notice two Nebulas gleaming in their midst. Inevitably someone will say, "I didn't know Gardner was a writer." "Oh yes, one of us Old Hands" will reply. We linger near the trophy table for this very purpose. "Gardner's a much better writer than he is an editor." Selection and introduction of Dozois written stories by Stephen Baxter, Michael Bishop, Pat Cadigan, Susan Casper, Jack Dann, Andy Duncan, Eliot Fintushel, Joe Haldeman, James Patrick Kelly, John Kessel, Nancy Kress, George R. R. Martin, Paul McAuley, Ian McCloud, Mike Resnick, Kim Stanley Robinson, Kristine Kathryn Rusch, Robert Silverberg, Michael Swanwick, Walter Jon Williams, Connie Willis, and Jane Yolen. At the publisher's request, this title is sold without DRM (Digital Rights Management). "Lyric, haunting, heartbreaking, this is science fiction at its best." George R. R. Martin. **One** Nancy Kress, 2013-07-17 One by Nancy Kress is a science fiction novella about an angry young boxer who, after experiencing a concussion in a bout, is able to sense what people are thinking and predict their every move. He finds this useful in boxing but not great for personal relationships and turns to artificial means to deaden the sensations. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. **Elements of Fiction Writing - Beginnings, Middles & Ends** Nancy Kress, 2011-02-25 Get your stories off to a roaring start. Keep them tight and crisp throughout. Conclude them with a wallop. Is the story or novel you've been carrying around in your head the same one you see on the page? Or does the dialogue suddenly sound flat and predictable? Do the events seem to ramble? Translating a flash of inspiration into a compelling story requires careful crafting. The words you choose, how you describe characters, and the way you orchestrate conflict all make the difference between a story that is slow to begin, flounders midway, or trails off at the end, and one that holds the interest of readers and editors to the final page. By demonstrating effective solutions for potential problems at each stage of your story, Nancy Kress will help you hook the editor on the first three paragraphs, make and keep your story's implicit promise, build drama and credibility by controlling your prose. Dozens of exercises help you strengthen your short story or novel. Plus, you'll sharpen skills and gain new insight into the price a writer pays for flashbacks, six ways characters should reveal themselves, techniques for writing and rewriting. Let this working resource be your guide to successful stories from beginning to end. **The Year's Top Ten Tales of Science Fiction 10** R. S. Benedict, Tobias S. Among the stars, humanity encountered the Fallers, a strange alien race bent on nothing short of genocide. It's all out war and humanity is losing. In this fragile situation, a new planet is discovered inhabited by a pre-industrial race who experience shared reality; they're literally compelled to share the same worldview. A team of human scientists is dispatched, but what they don't know is that their mission of first contact is actually a covert military operation.
