## **Flash Problem Need Help:**

**Flash's Song** Kay Pfaltz, 2015-09-15 Flash's Song is the true account of how one person discovered the secret of miracles. Freelance writer Kay Pfaltz was living a quiet simple life with her three beloved dogs when suddenly her life turned upside down. Coming to terms with a failed relationship, she must now take her ailing dachshund Flash in for back surgery. But when the vet tells Kay that Flash's problem is not a disc but in fact a tumor growing on his spine and Flash has at most three weeks to live, Kay is devastated. Here begins a journey of self-discovery and recovery that will open Kay's heart to the greatest miracle of all. Flash's Song tells the story of amazing canine courage and remission against all odds. It is a ballad of love and redemption and a moving account of how Flash's three-week prognosis became five and a half miraculous months of learning, loving, and finally accepting. Written in luminous prose accompanied by poignant photos and filled with keen insight into love, faith, and the power of forgiveness, Flash's Song is not only a heartwarming ode to a little dog but also a tribute to life and an invitation to cherish every moment of it.

*Assessment of Hydrologic and Hydrometeorological Operations and Services*  
National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, National Weather Service Modernization Committee, 1997-01-03. Floods are by far the most devastating of all weather-related hazards in the United States. The National Weather Service (NWS) is charged by Congress to provide river and flood forecasts and warnings to the public to protect life and property and to promote the nation's economic and environmental well-being such as through support for water resources management. As part of a modernization of its technologies and organizational structure, the NWS is undertaking a thorough updating of its hydrologic products and services and the activities that produce them. The National Weather Service Modernization Committee of the National Research Council undertook a comprehensive assessment of the NWS plans and progress for the modernization of hydrologic and hydrometeorological operations and services. The committee's conclusions and recommendations and their related analysis and rationale are presented in this report.
