Fleetwood Motorhome Slideout Systems Operations Manual

Introduction

The Power Gear electric slide out system in your unit is designed to give you years of trouble-free operation and reflects the latest state of the art technology. Read, study, and understand this manual before operating this Slideout System.

System Description

The Power Gear Slideout System consists of four major components:

- Two inner rail assemblies (one for bedroom or wardrobe) designed to support the room weight.
- A 12 volt DC motor and drive shaft that will operate the room using power from the on-board unit battery.
- A Manual Override System that allows you to extend / retract the room in the event of loss of power.
- A specially designed control that gives the user full control of the room movement in or out. The control has a load sensing capability that stops the motor when the room reaches its fully extended or retracted positions.
