Auld Lang Syne

All around the world there are unique and interesting traditions surrounding the celebration of a new year. Just after midnight in Scotland, many participate in the tradition of "first-footing" by visiting neighbors and friends with a small gift. The first-foot over the threshold of the house is supposed to set luck for the year. "Auld Lang Syne" is often sung at the end of the celebration, just like it is in other countries around the world. In Spain, it is the custom to eat 12 grapes, one with each toll of the clock at midnight, for 12 months of good luck. In the Philippines, many wear polka dots because the circle is a symbol of prosperity. The Dutch burn their Christmas trees in street bonfires, a banishing of the old and welcoming of the new. Eating a stew of black-eyed peas on New Year's Day is traditional in the American South, a custom meant to symbolize coins and economic prosperity in the new year. In countries all over the world, it is common to mark the new year with a kiss. Some believe that not doing so will bring a year of loneliness. What all these traditions have in common is this: we are all hoping for a great new year full of happiness.

When reading a timed passage, it's easy to think that speed is quality as possible. But fluent reading is not just about speed. Many adults can easily read about 300 words per minute, but the meaning is incomprehensible. It is not considered fluent reading. A child should have the same smoothness and rate as an adult. Remember that reading should sound as much like talking as it can.

FOCUS: read to learn new information.

Fluency Guided Lessons 4th Grade:

Guided Practice for Reading Growth, Grades 4-8 Laura Robb, David Lee Harrison, 2021 Struggling readers especially those in grades 4-8 need to feel success with reading they often develop negative mindsets and tune out and away from reading at this age Currently there is a large market for low level high interest trade books to reach middle school students who are reading far below grade level The problem with such books however is that kids feel embarrassed to be seen reading them furthering the negative mindset And of course simply sticking a low level reader with a book and asking him or her to read independently is problematic because these kids likely still need some shared and guided reading support in order to master the skills they're lacking Yet many middle grade teachers don't have experience teaching guided reading so they too need support This book by Laura Robb and David Harrison solves these problems by offering both original poems and short texts for students as well as lesson ideas for teachers The poems and short texts are written specifically for students in grades 4 to 8 reading two or more years below grade level they're written at a second and third grade instructional level but the ideas will be complex Plus the poems and short texts used for shared reading will be written at a higher level because the teacher reads the text first and then students choral read it together The book's ultimate goal is this As students gain self confidence by reading and discussing poetry short texts and books during independent reading their successes will develop the mindset needed to continue to read independently to improve their reading skill and stamina **Eureka Math Grade 4**

Study Guide Great Minds, 2015-11-09 Eureka Math is a comprehensive content rich PreK-12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics CCSSM and carefully sequences the mathematical progressions into expertly crafted instructional modules The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location unpacking the standards in detail so that both users and non users of Eureka Math can benefit equally from the content presented Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year information on alignment to the instructional shifts and the standards design of curricular components approaches to differentiated instruction and descriptions of mathematical models The Study Guides can serve as either a self study professional development resource or as the basis for a deep group study of the standards for a particular grade For teachers who are new to the classroom or the standards the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics The Study Guides allow teachers to obtain a firm grasp on what it is that students should master during the year The Eureka Math Curriculum Study Guide Grade 4 provides an overview of all of the Grade 4 modules including Place Value Rounding and Algorithms for Addition and Subtraction Unit Conversions and Problem Solving
