British and French struggled to overcome a dissonance between their visions of empire and the reality of Overhill mobility and sovereignty a struggle that came to play a crucial role in the Anglo American revolutionary debate that dominated the 1760s and 1770s By emphasizing Indigenous agency in this rapidly changing world Cherokee Power challenges long standing ideas about the power and reach of European empires in eighteenth century North America *Eclectic Magazine, and Monthly Edition of the Living Age* John Holmes Agnew, Walter Hilliard Bidwell, 1868 [Avesta: the Religious Books of the Parsees: from Professor Spiegel's German Translation of the Original Manuscripts by A. The Reception of Oscar Wilde in Europe Stefano Evangelista, 2010-05-06 Oscar Wilde 1854 1900 is now widely recognised not only as one of the most representative figures of the British fin de siècle but as one of the most influential Anglophone authors of the nineteenth century In Britain Wilde suffered a long period of comparative neglect following the scandal of his conviction for gross indecency in 1895 and it is only recently that his works have been reassessed But while Wilde was subjected to silence in Britain he became a European phenomenon His famous dandyism his witticisms paradoxes and provocations became the object of imitation and parody his controversial aesthetic doctrines were a strong influence not only on decadent writers but also on the development of symbolist and modernist cultures This collection of essays by leading international scholars and translators traces the cultural impact of Oscar Wilde's work across Europe from the earliest translations and performances of his works in the 1890s to the present day

Translation, Travel, Migration Loredana Polezzi, 2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory both practices seen as metaphors of mobility and flux linked to globalized post modern society Travel is a multiple activity encompassing temporary and voluntary displacement repeated movement exile economic migration diaspora Places of origin are often plural and unstable in spite of the enduring appeal of traditional labels such as mother country or patrie The multiple interfaces between translation travel and migration are the focus of all contributions in this special issue Starting from different points of view and using a variety of methodologies the authors raise fundamental questions about the way in which we perceive the link between language national or ethnic identity and individual voice Topics range from the

interaction between travel travel narratives and translation in early English representations of China to the special role played by interpreters in mediating the first contact between a literate and a non literate culture from the multiple functions and audiences addressed by contemporary Romani literature and its translation to the political as well a cultural implications of translating popular music across the Bosphorus A number of the articles focus on detailed textual analysis covering the intersection between exile self translation and translingualism in the work of Manuel Puig the uses and limitations of translation in the works of migrant authors or the impact on figurations of Europe of experimental work embracing polylingualism Collectively these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are and what roles they play in our society
