**The Civilization of the Italian Renaissance** Kenneth R. Bartlett,2011-01-01 *The Civilization of the Italian Renaissance* brings together a selection of primary source documents

designed to introduce students to the richness of the period For this edition a new chapter on Dante and his time provides a useful transition to the Renaissance from the culture of the Middle Ages There are also new selections on warfare education Florence humanism the Church and the later Renaissance The introductions to the readings are revised and an essay on how to read historical documents is included *Report from the Secret Committee of The House of Lords Appointed to Inquire Into the Causes of the Distress which Has for Some Time Prevailed Among the Commercial Classes, and how Far it Has Been Affected by the Laws for Regulating the Issue of Bank Notes Payable on Demand, Together with the Minutes of Evidence, and an Appendix* Gran Bretagna. Parliament,1848 Criminal Misconduct in Office Jeremy Horder,2018-03-02 Should the criminal law be used to deter and punish corruption in politics from employing family members at public expense to improper spending on elections lobbying and cronyism How did so many MPs avoid facing charges after the 2009 government expenses scandal In this book Jeremy Horder tackles these questions and more As well as offering the first treatment of the history philosophy and politics of the application of the offence of misconduct in office to Members of Parliament in England and Wales Horder explains how political corruption might be dealt with in future and how politicians could be held accountable for their actions so that they are deterred from betraying the public s trust Use of the criminal law should not be the sole or even the main way to remedy all corruption in politics Nevertheless for too long the offence of misconduct in a public office has had an ambiguous status in the political realm If we are to preserve the good health of government it must be seen as a constitutional fundamental A charge of misconduct provides a way in which corrupt conduct on the part of legislators can be punished with an appropriate label holding them to account for the misuse of power by reference to the standards of ordinary people When other civil law or regulatory means prove insufficient it should be possible for ordinary members of a jury and not for Parliamentarians or other officials to decide whether for example the expenditure of public money on legislators private income and benefits amounts to a criminal abuse of the public s trust This book offers an authoritative and accessible account of a bottom up jury standards led as opposed to a top down officials applying their own standards approach to the role of the criminal law in constitutional contexts *Reports from Secret and Select Committees of the House of Commons and Evidence* Great Britain. Parliament. House of Lords,1848 **The Technologisation of the Social** Paul O'Connor,Marius Ion Bența,2021-12-30 In an era of digital revolution artificial intelligence big data and augmented reality technology has shifted from being a tool of communication to a primary medium of experience and sociality Some of the most basic human capacities are increasingly being outsourced to machines and we increasingly experience and interpret the world through digital interfaces with machines becoming ever more social beings Social interaction and human perception are being reshaped in unprecedented ways This book explores this technologisation of the social and the attendant penetration of permanent liminality into those aspects of the lifeworld where individuals had previously sought some kind of stability and meaning Through a historical and anthropological examination of this

phenomenon it problematises the underlying logic of limitless technological expansion and our increasing inability to imagine either ourselves or our world in other than technological terms Drawing on a variety of concepts from political anthropology including liminality the trickster imitation schismogenesis participation and the void it interrogates the contemporary technological revolution in a manner that will be of interest to sociologists social and anthropological theorists and scholars of science and technology studies with interests in the digital transformation of social life **The Secret Lives of Hoarders**

Matt Paxton,Phaedra Hise,2011-05-03 On the front lines with extreme hoarders The Secret Lives of Hoarders is much more than harrowing tales of attacking the ugliest dirtiest and most shocking hoarding cases in the country It is a behind the scenes look at this hidden epidemic what it means how to recognize it before it gets out of hand and how to deal with it Through his work with hundreds of clients in the worst circumstances from the giant rat s nest that hid more than 13 000 in cash to a vast cache of cartoon pornography to twenty five years worth of unopened mail Matt Paxton has learned to understand this disorder and his clients impulses to collect to speak the hoarders language and to reach out to them with compassion and concern while avoiding criticism and judgment Most important he guides compulsive hoarders successfully through every step of the clean up and healing process The Secret Lives of Hoarders is an engrossing and sometimes unsettling look at extreme clutter but one that helps hoarders their families and their friends to find meaning in the chaos

Sierra Leone; Its People, Products, and Secret Societies H. Osman Newland,1916 To defer or differ: Experimental evidence on the role of cash transfers on Nigerian couples' decision-making Bakhtiar, M. Mehrab,Fafchamps, Marcel,Goldstein, Markus,Leonard, Kenneth L.,Papineni, Sreelakshmi,2024-10-02 We conduct an original lab in the field experiment on the decision making process of married couples over the allocation of rival and non rival household goods The experiment measures individual preferences over allocations and traces the process of deferral consultation communication and accommodation by which couples implement these preferences We find few differences in individual preferences over allocations of goods However wives and husbands have strong preferences over process women prefer to defer decisions to their husbands even when deferral is costly and is not observed by the husband men rarely defer under any condition Our study follows a randomized controlled trial that ended a year earlier and gave large cash transfers over eighteen months to half of the women in the study We estimate the effect of treatment on the demand for agency among women and find that the receipt of cash transfers does not change women s bargaining process except in a secret condition when the decision to defer is shrouded from her husband This suggests that the cash transfer to women increases their demand for agency but does not change the intra household balance of power enough to allow them to express it publicly
